Deployment Date: 11/27/2017

Hot Fix: DeltekCostpoint711FrameworkUpdate035.exe

Framework

Deltek Defect Tracking Number:

852069

Issues Resolved:

Description: Framework has been updated to include the ability to enter requirement formulas for Objects in Result Sets.
Customers Impacted: All Costpoint users.
Workaround Before Fix: None.
Additional Notes: Patch 5098 and 7136 are required. Link-views should be generated after the patches are applied.

Files Updated:

csbatools.jar 8103 KB 11/9/2017 4:04pm

System File Dependencies:

cp711_sys_034.zip

cp711_patch5098_001.zip

cp711_patch7136_001.zip

Framework

Deltek Defect Tracking Number:

856786

Issues Resolved:

Description: Framework has been updated to enable you to log in to Costpoint without clicking **Login** on the Costpoint Login page. To log in, you only need to type your Username/ID on the Login page and then leave or tab out of the **Username/ID** field. The system will automatically log you into the system.

Customers Impacted: Costpoint 7.1.1. users who are configured to use FIDO password-less authentication.

Workaround Before Fix: None.

Additional Notes: The System Admin can configure the password-less authentication on the Manage Users screen. The new security provider jar is required.

Files Updated:

CPWebSecurityProviders.jar 304 KB 11/9/2017 4:04pm

cp711_sys_035.zip

Framework/External Tools

Deltek Defect Tracking Number:

857214

Issues Resolved:

Description: The Costpoint Configuration Utility version 7.1.1 generated the **federationmetadata.xml** file for Active Directory Federation Services (AD FS) configuration in a predefined location.

You can now specify the output folder for the generated file using the **AD FS Relying Party Trust** feature located on the Weblogic, Security tab in the Product Configuration Utility.

Customers Impacted: All Costpoint 7.1.1 users who configure SAML single sign-on with AD FS.

Workaround Before Fix: None.

Additional Notes: None.

Files Updated:

csbatools.jar 8103 KB 11/9/2017 4:04pm

Framework/External Tools/XTDESIGNER

Deltek Defect Tracking Number:

857251

Issues Resolved:

Description: When you attempted to delete an application in the Extensibility Console by first removing all links to other objects in the Extensibility Application, you would receive an error. The Extensibility Console has been updated to enable you to delete the link between the Extensibility Application and the result sets (RS) and result sets tree (RS tree).
Customers Impacted: Costpoint Extensibility users.
Workaround Before Fix: Delete the whole unit.
Additional Notes: None.

Files Updated:

csbatools.jar 8103 KB 11/9/2017 4:04pm

Framework/External Tools/MONITOR

Deltek Defect Tracking Number:

865015

Issues Resolved:

Description: If you launched the Costpoint Monitor Utility and ran the IIS test only, the Monitor Utility showed an error when reading the IIS configuration. Monitoring has been updated to correctly read the IIS configuration.

Customers Impacted: Costpoint 7.1.1 users

Workaround Before Fix: None.

Additional Notes: None.

Files Updated:

csbatools.jar 8103 KB 11/9/2017 4:04pm

Custom Programs Affected:

Sometimes a hot fix can cause custom programs and reports to stop working as expected. Before applying this hot fix, consider whether you have any custom programs or reports in the application area affected by the hot fix. If so, contact Deltek support at https://deltek.custhelp.com before you install the hot fix.

To Download the Hot Fix:

1. From Internet Explorer, go to https://dsm.deltek.com.
2. Click Run Deltek Software Manager.
3. Log in using your Deltek Customer Care Connect credentials.
4. In the left pane of the Deltek Software Manager, expand your Deltek product.
5. Expand the Hotfix folder for your product, and select the hotfix to download.
6. Click Download at the bottom of the screen.
