Deployment Date: 6/12/2015

Hot Fix: cp711_pcmrelmo_005.zip

MATERIALS/PRODUCTION CONTROL/PCMRELMO/Relieve Manufacturing Orders

Deltek Defect Tracking Number:

475013

Issues Resolved:

Description: New system logic has been added so that negative issues (reversed or non-reversed) can now include expired serial/lot rows when allocating inventory. This applies to parts with a **Shelf Life Type** of **Extendable** or **Non-Extendable**.

Customers Impacted: This affects Costpoint users who use the Shelf Life functionality in tandem with the Hard Allocations functionality.

Workaround Before Fix: None.

Additional Notes: None.

MATERIALS/PRODUCTION CONTROL/PCMRELMO/Relieve Manufacturing Orders

Deltek Defect Tracking Number:

488189

Issues Resolved:

Description: Costpoint assigned a negative value in the **INVT.ORD_QTY** field if a partial manufacuring order relief was reversed and the negative relief quantity was less than the orginal relief quantity. This could result in incorrect material requirements planning (MRP) calculations because inaccurate order quantities could cause the MRP module to increase supplies.

Customers Impacted: This affects Costpoint 7.1.1 users who use the Production Control and Material Requirements Planning modules.

Workaround Before Fix: Run the Reconcile Inventory Balances application.

Additional Notes: None.

MATERIALS/PRODUCTION CONTROL/PCMRELMO/Relieve Manufacturing Orders

Deltek Defect Tracking Number:

488590

Issues Resolved:

Description: Costpoint displayed the following error message when you created manufacturing order (MO) reliefs: "Can't find bind variable sSerialRelievedFlag."

Customers Impacted: This affects Costpoint 7.1.1 users who use the Production Control module.

Workaround Before Fix: Create separate transactions for the manufacturing order (MO) relief and the MO issue.

Additional Notes: None.

MATERIALS/PRODUCTION CONTROL/PCMRELMO/Relieve Manufacturing Orders

Deltek Defect Tracking Number:

490064

Issues Resolved:

Description: Costpoint divided the value in the **Unit Cost** field incorrectly and did not fully relieve the total manufacturing order cost.

Customers Impacted: This affects Costpoint 7.1.1 users who use the Production Control module.

Workaround Before Fix: None.

Additional Notes: None.

MATERIALS/PRODUCTION CONTROL/PCMRELMO/Relieve Manufacturing Orders

Deltek Defect Tracking Number:

498811

Issues Resolved:

Description: The Relieve Manufacturing Orders application has been modified to include a Lookup filter in the **Issue to MO** field that excludes the manufacturing order (MO) that is currently loaded for the relief. In addition, if that MO is entered or copy/pasted into the **Issue to MO** field, Costpoint will display the following error message: "Error: The Build part cannot be issued back to its own Manufacturing Order requirement."

Customers Impacted: This affects Costpoint 7.1.1 users who use the Production Control module.

Workaround Before Fix: None.

Additional Notes: None.

MATERIALS/PRODUCTION CONTROL/PCMRELMO/Relieve Manufacturing Orders

Deltek Defect Tracking Number:

502745

Issues Resolved:

Description: You were unable to use an existing lot ID. Using the **Lookup** to retrieve the lot ID yielded no results. This occurred when the manufacturing order Make item was relieved, then reversed, and finally relieved once more. Costpoint displayed a serial error message, but not a warning message indicating that shelf life information is required.

Customers Impacted: This affects Costpoint users who use the Shelf Life functionally in tandem with the Lot Tracking functionality in manufacturing order reliefs.

Workaround Before Fix: None.

Additional Notes: None.

Custom Programs Affected:

Sometimes a hot fix can cause custom programs and reports to stop working as expected. Before applying this hot fix, consider whether you have any custom programs or reports in the application area affected by the hot fix. If so, contact Deltek support at https://deltek.custhelp.com before you install the hot fix.

To Download the Hot Fix:

1. From Internet Explorer, go to https://dsm.deltek.com.
2. Click Run Deltek Software Manager.
3. Log in using your Deltek Customer Care Connect credentials.
4. In the left pane of the Deltek Software Manager, expand your Deltek product.
5. Expand the Hotfix folder for your product, and select the hotfix to download.
6. Click Download at the bottom of the screen.
