

**Deployment Date: 4/8/2015**

**Hot Fix: cp711\_pppgpo\_004.zip**

## **MATERIALS/PROCUREMENT PLANNING/PPPGPO/Create Purchase Orders**

**Deltek Defect Tracking Number:**

482297

**Issues Resolved:**

**Description:** When creating a purchase order (PO) from a requisition, the **Order Date** field generated on the Create Purchase Orders application was different from the record that was created on the Manage Purchase Orders application. Though the **Order Date** field indicated the correct date, there was a discrepancy in the timestamp values.

**Customers Impacted:** This affect Costpoint users who use the Create Purchase Orders application to create new PO records.

**Workaround Before Fix:** Use the following filters when creating new POs:

- On the **Is greater or equal (>=)** field, enter the date you want to include for all POs ordered
- On the **Is less than (<)** field, enter start date to exclude for all POs ordered

**Additional Notes:** None.

**Files Updated:**

cp711\_pppgpo\_004.jar

**System File Dependencies:**

N/A

**Custom Programs Affected:**

Sometimes a hot fix can cause custom programs and reports to stop working as expected. Before applying this hot fix, consider whether you have any custom programs or reports in the application area affected by the hot fix. If so, contact Deltek support at <https://deltek.custhelp.com> before you install the hot fix.

**To Download the Hot Fix:**

1. From Internet Explorer, go to <https://dsm.deltek.com>.
2. Click Run Deltek Software Manager.
3. Log in using your Deltek Customer Care Connect credentials.
4. In the left pane of the Deltek Software Manager, expand your Deltek product.
5. Expand the Hotfix folder for your product, and select the hotfix to download.
6. Click Download at the bottom of the screen.
