Deployment Date: 1/6/2017

Hot Fix: cp711_ldpauto_010.zip

PEOPLE/LABOR/LDPAUTO/Auto-Adjust Timesheets in Batch Mode

Deltek Defect Tracking Number:

731949

Issues Resolved:

Description: The application was corrected to include reversed and reversal timesheets in Salary Caps processing.

Customers Impacted: This defect affects Costpoint Labor users.

Workaround Before Fix: None.

Additional Notes: In addition to including reversed timesheets and reversing timesheets in the calculation, the application applies the following:

- If the newly calculated amount for each line is greater than the original amount and the previously unallowed amount is zero, the timesheet will not be capped.
- If the newly calculated amount for each line is greater than the original amount and the previously unallowed amounts is not zero, then the previously unallowed amount (salary cap line code is G) will be multiplied by -1 and this will be the labor cost used on the new Salary Cap timesheet line.

Custom Programs Affected:

Sometimes a hot fix can cause custom programs and reports to stop working as expected. Before applying this hot fix, consider whether you have any custom programs or reports in the application area affected by the hot fix. If so, contact Deltek support at https://deltek.custhelp.com before you install the hot fix.

To Download the Hot Fix:

1. From Internet Explorer, go to https://dsm.deltek.com.
2. Click Run Deltek Software Manager.
3. Log in using your Deltek Customer Care Connect credentials.
4. In the left pane of the Deltek Software Manager, expand your Deltek product.
5. Expand the Hotfix folder for your product, and select the hotfix to download.
6. Click Download at the bottom of the screen.
