PJ/CR/PJPCOMPR/Compute Revenue

[Deltek Defect Tracking Number:](#)

800526

[Issues Resolved:](#)

Description: When you ran Process Organization Changes after the owning organization was changed, a new row was created for Revenue and Award Fees (accounts with function code 1 and 14, respectively) for the new owning organization. When revenue was computed, the amounts from the old organization were not cleared, which resulted to incorrect revenue and overceiling amounts.

Customers Impacted: This defect affects Costpoint users.

Workaround Before Fix: None.

Additional Notes: None.

PJ/CR/PJPCOMPR/Compute Revenue

Deltek Defect Tracking Number:

817088

Issues Resolved:

Description: A new table, Project Modification ITD Summary (PROJ_MOD_ITD_SUM), has been added to Costpoint to store inception-to-date funded and contract values that exclude modifications from periods later than the calculated period. The new table is populated by the Compute Revenue process, whether or not the **Track Revenue Setup Information on Compute Revenue** check box is selected on the Configure Project Settings screen. The data written to the new table will be for unique project/fiscal year/period/subperiod combinations and will be overwritten when Compute Revenue is rerun for the same project/fiscal year/period/subperiod combination. Fields in this new table are used for the Project Status Report, Project Revenue Summary, and Project Revenue Worksheet.

Customers Impacted: This change affects Costpoint users.

Workaround Before Fix: None.

Additional Notes: None.
