Deployment Date: 11/2/2016

Hot Fix: DeltekCostpoint711FrameworkUpdate022.exe; cp711_sys_022.zip; cp711_patch7009_001.zip; cp711_patch7011_001.zip

Framework

Deltek Defect Tracking Number:

713460

Issues Resolved:

Description: Framework and the following applications are updated to support FIDO security key authentication model:

- Manage Users - Anew group box, FIDO Security Key, is added to the 2FA Settings group box with the following options:
  - Enabled - Select this check box to enable the user to authenticate login with FIDO security key.
  - Passwordless - This check box is editable only if you selected Enabled. Select this check box to allow the user to log in to Costpoint with a valid security key only (that is, the user does not need to provide a one-time passcode on the login page).
- Configure User Preferences - A new subtask, FIDO Security Keys (2FA), is now available on this screen. Users for which the FIDO Security Key authentication method has been enabled must access this subtask to register their security key.

Customers Impacted: This enhancement affects Costpoint users.**Workaround Before Fix:** None.**Additional Notes:** This requires PATCH7109, PATCH7111, and the new security provider (Framework update).

Framework/External Tools/DBWIZARD

Deltek Defect Tracking Number:

721322

Issues Resolved:

Description: You changed the CPSYSTEM, CPADMIN, and DELTEK passwords in Oracle, as well as the Oracle SYSTEM and SYS passwords on the databases. After the change, you removed the systems and recreated them in the Configuration Utility. Errors occurred when you ran DBWizard > Link View even though test of all the database connections and SYSTEM password was successful.**Customers Impacted:** This defect affects Costpoint users.**Workaround Before Fix:** None.**Additional Notes:** None.

Custom Programs Affected:

Sometimes a hot fix can cause custom programs and reports to stop working as expected. Before applying this hot fix, consider whether you have any custom programs or reports in the application area affected by the hot fix. If so, contact Deltek support at https://deltek.custhelp.com before you install the hot fix.

To Download the Hot Fix:

1. From Internet Explorer, go to https://dsm.deltek.com.
2. Click Run Deltek Software Manager.
3. Log in using your Deltek Customer Care Connect credentials.
4. In the left pane of the Deltek Software Manager, expand your Deltek product.
5. Expand the Hotfix folder for your product, and select the hotfix to download.
6. Click Download at the bottom of the screen.

More Information:
