

Vision Cumulative Update Notes

Released: March 07, 2014

Release Name: Cumulative Update #017

Software Issues Resolved (5)

Billing

Deltek Defect Tracking Number: 404374

Description: If you selected **Disable Upset Limits** in the Billing Session Options dialog box and you accepted an invoice in Interactive Billing that had gone through the invoice approvals process and been approved, the **Disable Upset Limits** option was ignored, and the upset limits were applied to the invoice.

Customers Impacted: This defect applies to Vision 7.1 and later versions.

Workaround Before Fix: None.

Additional Notes: The **Disable Upset Limits** option functioned correctly for invoices for which invoice approval was not enabled.

Files Updated

Deltek.Vision.interactiveBilling.Client.dll

Deltek.Vision.Billing.Server.dll

Other Applications Affected

System File Dependencies

Mobile Time

Deltek Defect Tracking Number: 412911

Description: When using Touch Time with a large database and a role that was set to **Is Mine** for Projects (Configuration » Security » Roles » Record Access), tapping + in **Find Project** returned no records for a Timesheet Period.

Customers Impacted: This issue applies to clients using Vision Touch Time.

Workaround Before Fix: Remove the **Is Mine** filter or change it to **Equals** in Configuration » Security » Roles » Record Access.

Additional Notes: None.

Files Updated

Deltek.Vision.VisionServices.Server.dll

Other Applications Affected

System File Dependencies

Proposals

SF330 Proposals

Deltek Defect Tracking Number: 408873

Description: When firms in Firm Setup – Proposals selected one organization as the **Parent Firm** on the Additional Info tab, yet this firm was marked as the **Parent** on the General tab under Firm Setup – Proposals, the SF330 Part II Block 9 c(2) displayed the branch count as zero.

Customers Impacted: This issue applies to Vision 7.0 and later versions.

Workaround Before Fix: None.

Additional Notes: None.

Files Updated

Deltek.Vision.sf330.Client.DLL

Other Applications Affected

System File Dependencies

Transaction Center

Transaction Entry and Transaction Posting

Deltek Defect Tracking Number: 413247

Description: There was an issue where the tax debit amount in voucher posting did not match the tax amount in the functional currency that was stored for the voucher line item. This caused a discrepancy where the General Ledger and File Rec Accounts Payable balance did not match the Voucher Ledger.

Customers Impacted: This issue applies to clients using Vision 6.0 and later versions.

Workaround Before Fix: None.

Additional Notes: None.

Files Updated

Deltek.Vision.Posting.Server.dll

Other Applications Affected

System File Dependencies

Utilities

Process Server

Deltek Defect Tracking Number: 405146

Description: Making a change in Weblink resulted in a restart of the process server, which could end jobs that were running at the time of the restart.

Customers Impacted: This defect applies to Vision 7.0 and later versions.

Workaround Before Fix: None.

Additional Notes: None.

Files Updated

Deltek.Framework.Ancestors.Server.dll

Deltek.Framework.ProcessServer.Server.dll

Other Applications Affected

System File Dependencies

More information about this release is on the following page.

Custom Programs Affected:

Sometimes an update can cause custom programs and reports to stop working as expected. Before applying this update, consider whether you have any custom programs or reports in the application area affected by the update. If so, contact Deltek Customer Care at <http://support.deltek.com> before you install the update.

To Download the Cumulative Update:

1. From Internet Explorer, go to <https://dsm.deltek.com>.
2. Click **Run Deltek Software Manager**.
3. Log in using your Deltek Customer Care Connect credentials.
4. In the left pane of the Deltek Software Manager, expand your Deltek product.
5. Expand the Hotfix folder for your product, and select the update to download.
6. Click **Download** at the bottom of the screen.

To Install the Cumulative Update:

Run the executable (.exe) file only on your application server, unless additional tiers are specifically noted in the defect descriptions above.

To Check to See if the Cumulative Update is Installed:

1. Click **Help > About** from the Vision toolbar.
2. Click the **Details** button on the **About Deltek Vision** dialog box.

More Information:

If you have any questions, please contact Deltek Customer Care at <https://support.deltek.com>.
