

Deployment Date: 5/28/2015

Hot Fix: cp711_bmrwu_002.zip

MATERIALS/BILLS OF MATERIAL/BMRWU/Print Where-Used Report

Deltek Defect Tracking Number:

488596

Issues Resolved:

Description: Costpoint displayed a critical system error when you tried to print a Where Used report in Microsoft Excel 2010 file format. This occurred when the report included a **Part ID** that contained special characters.

Customers Impacted: This affects Costpoint 7.1.1 users who use the Bills Of Material module.

Workaround Before Fix: Print to a different file format.

Additional Notes: Microsoft Excel 2010 does not allow tab names or sheet names with special characters, which caused the system error in Costpoint when you tried to print the report in Excel spreadsheet format. To address this, Costpoint has been updated to replace special characters, such as :, /, \, ?, *, [, and], with a hyphen (-) in the table of contents only. The contents of your report will not be affected.

Files Updated:

cp711_bmrwu_002.jar

System File Dependencies:

N/A

Custom Programs Affected:

Sometimes a hot fix can cause custom programs and reports to stop working as expected. Before applying this hot fix, consider whether you have any custom programs or reports in the application area affected by the hot fix. If so, contact Deltek support at <https://deltek.custhelp.com> before you install the hot fix.

To Download the Hot Fix:

1. From Internet Explorer, go to <https://dsm.deltek.com>.
2. Click Run Deltek Software Manager.
3. Log in using your Deltek Customer Care Connect credentials.
4. In the left pane of the Deltek Software Manager, expand your Deltek product.
5. Expand the Hotfix folder for your product, and select the hotfix to download.
6. Click Download at the bottom of the screen.
