Hot Fix: cp711_aoputlcr_001.zip

OTHERS/PRODUCT INTERFACES/AOPUTLCR/Cash Receipts Preprocessor

Deltek Defect Tracking Number:

523171

Issues Resolved:

Description: There were issues found when cash receipts were imported:

- The Continue to Process with Error Records and Overwrite Existing Records fields were missing on the cover page of the report.
- It was not indicated that the option selected under the Receipt section was Use Last System Cash Receipt Number.
- There was no error displayed when the entered Receipt Date was 01/01/1901. It even allowed the processing and importing of cash receipt without any error.

Customers Impacted: This defect affects you if you import cash receipts. **Workaround Before Fix:** Check the application again to verify the parameter used in processing input file. **Additional Notes:** When 01/01/1901 was entered in the Receipt Date field for Manage Cash Receipts (ARMCR), an error message displayed with the message, "Receipt Date entered is 114 years prior to the current year, please check and re-enter."
