

Deployment Date: 8/22/2018

Hot Fix: cp711_sys_044.zip; cp711_cmnlb_PCMOISSLIB_001.zip; cp711_inmmoiss_001.zip; cp711_cmnlb_MMQALLOCLIB_002.zip

MATERIALS/INVENTORY/INMMOISS/Enter Manufacturing Order Issues

Deltek Defect Tracking Number:

976855

Issues Resolved:

Description: When organization security was enabled for Enter Manufacturing Order Issues screen under the Inventory module, the organization security profile assigned to the screen was not applied.

Customers Impacted: This defect affects Costpoint users who use the organization security feature.

Workaround Before Fix: None.

Additional Notes: A new application ID for the Enter Manufacturing Order Issues screen, INMMOISS, has been created in Inventory (IN) module to differentiate from the Enter Manufacturing Order Issues screen in Production Control (PC) module. This change enables you to assign distinct organization security profiles and user rights to each screen. If you access the Enter MO Issues screen via PCMMOISS and your module rights are under the IN module, you now have to set up user rights and profiles for the Enter MO Issues screen using the INMMOISS application ID. However, license for both screens remain under the PC module.

Custom Programs Affected:

Sometimes a hot fix can cause custom programs and reports to stop working as expected. Before applying this hot fix, consider whether you have any custom programs or reports in the application area affected by the hot fix. If so, contact Deltek support at <https://deltek.custhelp.com> before you install the hot fix.

To Download the Hot Fix:

1. From Internet Explorer, go to <https://dsm.deltek.com>.
2. Click Run Deltek Software Manager.
3. Log in using your Deltek Customer Care Connect credentials.
4. In the left pane of the Deltek Software Manager, expand your Deltek product.
5. Expand the Hotfix folder for your product, and select the hotfix to download.
6. Click Download at the bottom of the screen.
