**Issues Resolved:**

**Description:** If you entered a regular pay type or cost-only timesheet line with zero hours, the **Labor Amount** field on the timesheet header did not display the labor total of the timesheet. The field only displayed the labor total after saving the record. In Costpoint 7.0.1, the application populated the **Labor Amount** field as you added lines with or without hours.

**Customers Impacted:** This defect affects Costpoint Labor users.
