Vision Cumulative Update Notes

Released: February 07, 2014

Release Name: Cumulative Update #015

Software Issues Resolved (6)

Analysis Cubes

Deltek Defect Tracking Number: 397548

Description: The Unit Total Cost and Net Revenue measures in Vision Analysis Cubes incorrectly included indirect and other charge expenses.

Customers Impacted: This defect applies if you use Vision 7.1 and later versions of Performance Management (Analysis Cubes).

Workaround Before Fix: None.

Additional Notes: None.

Files Updated

v_ExpenseBilling.sql
v_Expenses.sql
Create_Deltek_Vision_Cubes.xmla

Other Applications Affected

System File Dependencies

Billing

Deltek Defect Tracking Number: 401234

Description: When multiple users were using Interactive Approvals at the same time, they intermittently received one of these errors: "DocumentElement already exists" or "object reference."

Customers Impacted: This defect applies to Vision 7.1 and later versions.

Workaround Before Fix: None.

Additional Notes: None.

Files Updated

Deltek.Framework.Globals.Common.dll

Other Applications Affected

System File Dependencies

Configuration
Accounting
Banks

Deltek Defect Tracking Number: 407452

Description: This applies if you use the SEPA export-to-text format (selected in Banks Configuration) when you make payments in Vision. The amounts in the SEPA file were defined with a comma (,) and they should have been defined with a period (.). The file also incorrectly included the Group header "<BtchBookg>true</BtchBookg>" element, which has been removed.

Customers Impacted: This applies to Vision 6.2 SP2 and later versions.

Workaround Before Fix: Manually adjust the SEPA file.

Additional Notes: None.

Files Updated

Deltek.Vision.APPaymentProcess.Server.dll
Deltek.Vision.EmpPaymentBO.Server.dll

Other Applications Affected

System File Dependencies

Info Center
Projects

Deltek Defect Tracking Number: 400113

Description: When a phase or task did not have the **Approved for use in Processing** option selected on the General tab of the Project Info Center, the same phase or task was not included in the WBS lookup on the Contract Details grid. This grid is located on the Contract Management tab of the Project Info Center.

Customers Impacted: This issue applies to Vision 7.1 and later versions.

Workaround Before Fix: None.

Additional Notes: None.

Files Updated

Deltek.Vision.ProjectInfoCenter.Client.dll

Other Applications Affected

System File Dependencies

Deltek Defect Tracking Number: 400653

Description: When a new record was created in the Project Info Center using the **New » Create Project from Opportunity** or **New » Create Project from Template** menu options, the default values for user-defined fields were not populating. This applied to user-defined fields that were created for versions prior to Vision 7.x.

Customers Impacted: This issue applies to Vision 7.1 and later versions.

Workaround Before Fix: None.

Additional Notes: None.

Files Updated

Deltek.Vision.ProjectInfoCenter.Server.dll

Other Applications Affected

System File Dependencies

Deltek Defect Tracking Number: 407484

Description: When an autonumber stored procedure was used to create a new promotional or regular project record in the Project Info Center (**New » Create Project from Opportunity**), Vision displayed an error message.

Customers Impacted: This issue applies to Vision 7.0 SP1 and later versions.

Workaround Before Fix: None.

Additional Notes: None.

Files Updated

Deltek.Vision.ProjectInfoCenter.Server.dll

Other Applications Affected

System File Dependencies

Software Enhancements (1)

Performance Dashboards

Connect Custom Performance Dashboards to Vision Database

While all of the sample performance dashboards and most custom dashboards that that you create use the Analysis Cubes as the data source, you now also have the option to connect your custom dashboards directly to your Vision transactional database.

Files Updated

Deltek.Framework.PerformanceDashboard.Server.dll
Deltek.Vision.PerformanceDashboard.Server.dll
DeltekVisionResourceKit.exe

Custom Programs Affected:

Sometimes an update can cause custom programs and reports to stop working as expected. Before applying this update, consider whether you have any custom programs or reports in the application area affected by the update. If

so, contact Deltek Customer Care at http://support.deltek.com before you install the update.

To Download the HotFix:

1. From Internet Explorer, go to https://dsm.deltek.com.
2. Click **Run Deltek Software Manager**.
3. Log in using your Deltek Customer Care Connect credentials.
4. In the left pane of the Deltek Software Manager, expand your Deltek product.
5. Expand the Hotfix folder for your product, and select the update to download.
6. Click **Download** at the bottom of the screen.

To Install the HotFix:

Run the executable (.exe) file only on your application server, unless additional tiers are specifically noted in the defect descriptions above.<?xml:namespace prefix = o ns = "urn:schemas-microsoft-com:office:office" />

To Check to See if the HotFix is Installed:

1. Click **Help > About** from the Vision toolbar.
2. Click the **Details** button on the **About Deltek Vision** dialog box.

More Information:

If you have any questions, please contact Deltek Customer Care at https://support.deltek.com.
