Overview

Welcome to the FieldEase 22.2 Release Notes. These release notes contain a summary of features, enhancements, and software issues resolved made to the software.

Pre-Installation Information

FieldEase will be automatically updated and will be unavailable for login during the update.

Enhancements

This section includes enhancements in this release.

Work Orders List Screen

The Work Order List screen has been updated so icons are more accessible on various field devices.

Equip Specific Svc. Codes Tab Updates

The Equip Specific Svc. Codes tab on the Work Order List screen received the following updates:

- The Equipment section is now located at the top with items listed horizontally.
- Equipment assigned to the work order first are now first in the list.
- Displayed equipment information now includes equipment ID, model number, serial number, and location.
- Service items assigned when creating a work order now flow into the Equip Specific Svc. Codes tab if assigned to a piece of equipment, or directly into the Material tab and Labor tab.
- You can now edit service item information by clicking the pencil icon and **Service Items Used** to update instructions, recommendations, and resolutions. Items and quantities from the service items used now flow into the Material tab and Labor tab.
- The Material tab, Labor tab, and Attachment tab now provide a count of the number of entries.

Appendix: For Additional Information

If you need assistance installing, implementing, or using Deltek + ComputerEase, Deltek makes a wealth of information and expertise readily available to you.

Deltek + ComputerEase Customer Corner
