- Microsoft Project Import fails when using Microsoft Project 2003 to import projects with a large number of calendars.

Files Updated:

N/A

Other Applications Affected:

File/Import - Export/MSP

Custom Programs Affected:

Sometimes a hot fix can cause custom programs and reports to stop working as expected. Before applying this hot fix, consider whether you have any custom programs or reports in the application area affected by the hot fix. If so, contact Deltek support at <https://deltek.custhelp.com> before you install the hot fix.

To Download the Hot Fix:

1. From Internet Explorer, go to <https://dsm.deltek.com>.
2. Click Run Deltek Software Manager.
3. Log in using your Deltek Customer Care Connect credentials.
4. In the left pane of the Deltek Software Manager, expand your Deltek product.
5. Expand the Hotfix folder for your product, and select the hotfix to download.
6. Click Download at the bottom of the screen.

To Install the Hot Fix:

1. Download the ZIP file that contains the hot fix (for example, DeltekOpenPlanProfessional33HotFix01.zip) to your local workstation or any other workstation or server.
2. Extract the files in the ZIP file to your Open Plan folder, replacing the files there.
3. If you are prompted to replace files, select Yes to All.

To Check If the Hot Fix is Installed:

1. Click **Open Plan > Help > About Open Plan**.
2. Check that the version number reflects the installation of the hot fix.

You can also check the file dates in your Open Plan folder to see if they match the file dates in the hot fix ZIP file.
