Overview

Welcome to Deltek Costpoint Mobile Time and Expense 1.0 in the Cloud Cumulative Update Release Notes. These release notes contain a summary of the following:

- New Features and Enhancements
- Software Issues Resolved

Note: The official name of the application is *Deltek Costpoint Mobile Time and Expense*. This document only uses it at first mention. The succeeding instances of the application name display *Costpoint Mobile T&E*.

In addition, the application name in the *Apple App Store* and *Google Play Store* displays *Costpoint Time and Expense*.

Note: A feature that allows you to turn on or turn off your access to the Costpoint Mobile T&E application will be supported in a future release.

Note: The **Allow Lookup** option in the **Timesheet Classes » Pay Type Links** subtask must be selected in order for Costpoint Mobile T&E to use the **Pay Type** UDT. Manual entry in the user-defined fields is not available in the current release. This will be supported in a future release.

Costpoint Mobile T&E 1.0 in the Cloud Cumulative Update 09

This cumulative update applies to Costpoint Mobile T&E application 1.0.12 and Costpoint Mobile T&E Server 1.0.12.

Released: July 08, 2020

New Features and Enhancements

This section includes summaries of the new features and enhancements included for this release.

Support for PHP 7.4.6

The Costpoint Mobile T&E Server has been upgraded to support PHP 7.4.6.

Software Issues Resolved

This section includes summaries of the software issues resolved included for this release.

OKTA Login Screen Did Not Display When You Used Forget Me on This Device

Defect 1301010

Description: When you logged into Costpoint Mobile T&E on an iOS device using OKTA, and you tapped **Forget Me On This Device**, the OKTA Login screen did not display after the PIN screen or the Biometric screen on your next login.

Customers Impacted: This defect affects users who run Costpoint Mobile T&E in the Cloud on iOS devices.

Workaround Before Fix: None.

Additional Notes: None.

No Error Message Displayed for Incorrect OTP during 2FA

Defect 1293957

Description: If Costpoint Mobile T&E was configured for two-factor authentication (2FA), and you entered an incorrect one-time passcode (OTP) during login, the application did not display any error message.

Customers Impacted: This defect affects all Costpoint Mobile T&E in the Cloud users.

Workaround Before Fix: None.

Additional Notes: None.

Costpoint Mobile T&E 1.0 in the Cloud Cumulative Update 08

This cumulative update applies to Costpoint Mobile T&E application 1.0.11 and Costpoint Mobile T&E Server 1.0.11.

Released: April 30, 2020

New Features and Enhancements

This section includes summaries of the new features and enhancements included for this release.

Updated Application Icons

The Costpoint Mobile T&E application icons for iOS and Android have been updated.

Android

iOS

Note: The icon displays a square with rounded corners if you are using a lower version of Android.

Support for PHP 7.4.3

The Costpoint Mobile T&E Server has been upgraded to support PHP 7.4.3.

Apache Cordova for Android

This release includes the upgrade of Cordova-Android to 8.0.1 to provide several improvements and fixes for Android.

Software Issues Resolved

This section includes summaries of the software issues resolved included for this release.

Timesheet Rejected Message Displayed When Approving a Timesheet with Warning

Defect 1269638

Description: The Costpoint Mobile T&E application displayed the Timesheet Rejected message when you approved a timesheet with warning.

Customers Impacted: This defect affects all Costpoint Mobile T&E in the Cloud users.

Workaround Before Fix: None.

Additional Notes: None.

User not Logged Out of the Application Even If Session Was Already Cleared in Costpoint Time & Expense

Defect 1247586

Description: You were not logged out of the Costpoint Mobile T&E even if your session was already cleared in Costpoint Time & Expense.

Customers Impacted: This defect affects all Costpoint Mobile T&E in the Cloud users.

Workaround Before Fix: None.

Additional Notes: None.

Costpoint Mobile T&E 1.0 in the Cloud

Cumulative Update 07

This cumulative update applies to Costpoint Mobile T&E application 1.0.10 and Costpoint Mobile T&E Server 1.0.10.

Released: March 04, 2020

New Features and Enhancements

This section includes summaries of the new features and enhancements included for this release.

Improved App Response Time When Loading Timesheet after Login

The response time of the Costpoint Mobile T&E application has improved when loading a timesheet after you logged in.

Support for PHP 7.3.14

The Costpoint Mobile T&E Server has been upgraded to support PHP 7.3.14.

Software Issues Resolved

This section includes summaries of the software issues resolved included for this release.

Session Not Removed from Costpoint after Logging out from the Application

Defect 1242035

Description: When you logged out of the Costpoint Mobile T&E application, your session would still exist in Costpoint.

Customers Impacted: This defect affects all Costpoint Mobile T&E in the Cloud users.

Workaround Before Fix: Wait for the automatic session time out after one hour, or manually delete the session in Costpoint.

Additional Notes: None.

Google Analytics Not Using SSL

Defect 1243737

Description: Google Analytics would make requests over http instead of https.

Customers Impacted: This defect affects all Costpoint Mobile T&E in the Cloud users.

Workaround Before Fix: None.

Additional Notes: None.

Incorrect Timesheet Period Summary if Time Zone Was Set to Anchorage, U.S.A

Defect 1236836

Description: If the time zone setting on your device was set to Anchorage, U.S.A or to any other time zones, the Costpoint Mobile T&E would display the timesheet period summary by a day off.

Customers Impacted: This defect affects all Costpoint Mobile T&E in the Cloud users.

Workaround Before Fix: None.

Additional Notes: None.

Login Issue with PingFederate Authentication Server

Defect 1243702

Description: When you logged into the Costpoint Mobile T&E application through a PingFederate authentication server, you would encounter login issue.

Customers Impacted: This defect affects all Costpoint Mobile T&E in the Cloud users.

Workaround Before Fix: None.

Additional Notes: None.

Unable to Log out When Network Connection Failed

Defect 1210483

Description: If your network connection failed while you were still logged into the Costpoint Mobile T&E application, the application would not respond and you would not be able to log out.

Customers Impacted: This defect affects all Costpoint Mobile T&E in the Cloud users.

Workaround Before Fix: None.

Additional Notes: None.

Costpoint Mobile T&E 1.0 in the Cloud

Cumulative Update 06

This cumulative update applies to Costpoint Mobile T&E application 1.0.9 and Costpoint Mobile T&E Server 1.0.9.

Released: January 27, 2020

New Features and Enhancements

This section includes summaries of the new features and enhancements included for this release.

Support for Biometric Authentication

You can log in to Costpoint Mobile T&E using the biometric authentication feature. This functionality is controlled by a server setting, which, if enabled, allows you to enable or disable the biometric login on the Settings screen in Costpoint Mobile T&E.

You can use the Biometric authentication feature under the following conditions:

- The **ALLOW_BIOMETRICS** setting in the configuration.ini file is set to true. The Costpoint Mobile T&E version 1.0.9 installer will automatically update this setting.
- The Costpoint Mobile T&E Server version 1.0.9 or above and the Costpoint Mobile T&E application version is at 1.0.9 or above.
- You are using a device that support biometric authentication:
 - Fingerprint on Android
 - Touch ID on all supported Apple devices
 - Face ID on all supported Apple devices

Note: Face ID is not yet supported on Android devices although some devices already have this feature.

- The device has at least one fingerprint or a face ID registered. This implies that the device is encrypted and has a passcode, which are required.

Note: See the *Deltak Costpoint Mobile Time and Expense in the Cloud Administrator Guide* and the *Deltak Costpoint Mobile Time and Expense in the Cloud User Guide* for more information on this feature.

Support for SSO Authentication through a SAML Service Provider

You can configure Costpoint to act as a Security Assertion Markup Language (SAML) Service Provider to allow you to log into Costpoint Mobile in a Single Sign-On (SSO) mode. In this scenario, you do not provide credentials such as password on the Log In page. Instead, a SAML compliant server acts as a SAML Service Provider responsible for verifying your identity.

SAML SSO mode authentication is supported for the following third-party authentication servers:

- Microsoft Active Directory Federation Services (ADFS)

- Microsoft Azure
- Okta
- Ping

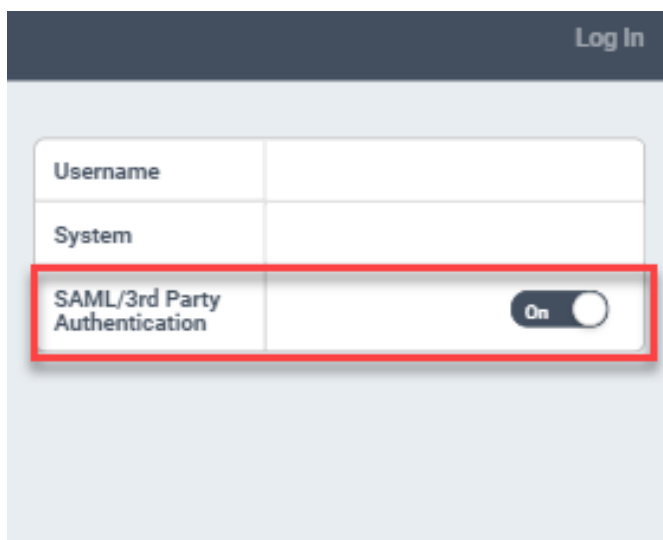

The **SAML/3rd party Authentication** field is added to the Costpoint Mobile T&E Log In screen.

The screenshot shows the 'Log In' screen with a dark blue header. Below the header is a light blue form area. The form contains four rows: 'Username', 'Password', 'System', and 'SAML/3rd Party Authentication'. The 'SAML/3rd Party Authentication' row is highlighted with a red border. To the right of the text 'SAML/3rd Party Authentication' is a toggle switch labeled 'off'.

Username	
Password	
System	
SAML/3rd Party Authentication	<input type="checkbox"/> off

Tapping **On** displays only the **Username** and **System** fields.

The screenshot shows the 'Log In' screen with a dark blue header. Below the header is a light blue form area. The form contains three rows: 'Username', 'System', and 'SAML/3rd Party Authentication'. The 'SAML/3rd Party Authentication' row is highlighted with a red border. To the right of the text 'SAML/3rd Party Authentication' is a toggle switch labeled 'On'.

Username	
System	
SAML/3rd Party Authentication	<input checked="" type="checkbox"/> On

After you enter the corresponding values and tap **Login**, Costpoint Mobile T&E redirects you to the SAML Service Provider Login page where you provide credentials such as user name, passwords, biometrics, certificates, and so on. The SAML service provider verifies your identity and issues SAML authentication token. You are directed back to Costpoint Mobile T&E, where it verifies your SAML authentication token. If your token is valid, you are allowed to continue with your login and the PIN screen displays.

Note: For more information, see the “SAML Single Sign-On (SAML SSO) Mode” section in the *Deltek Costpoint Mobile Time and Expense in the Cloud Administrator Guide* and “Log Into Costpoint Mobile T&E using SAML Identity Provider Authentication” section in the *Deltek Costpoint Mobile Time and Expense in the Cloud User Guide*.

Support for PHP 7.3.13

The Costpoint Mobile T&E Server has been upgraded to support PHP 7.3.13.

Software Issues Resolved

This section includes summaries of the software issues resolved included for this release.

On-screen Keyboard Would Cover the Server URL Field on iPhone SE

Defect 1171553

Description: When you logged into the Costpoint Mobile T&E application on an iPhone SE device with screen resolution of 320 x 568, the on-screen keyboard would show up and cover the **Server URL** field.

Customers Impacted: This defect affects users who run Costpoint Mobile T&E in the Cloud on Apple iPhone SE devices.

Workaround Before Fix: None.

Additional Notes: None.

Updated Email Link Screen for Android Devices

Defect 1226859

Description: The email link screen for Android devices has been updated to contain one hyperlink.

Customers Impacted: This defect affects users who run Costpoint Mobile T&E in the Cloud on Android devices.

Workaround Before Fix: None.

Additional Notes: If the application is not yet installed, clicking the hyperlink directs you to the Google Play Store, where you can download the application. After installing the application, clicking the hyperlink again populates the **Costpoint Mobile T&E Server URL** field with your company URL. If the application is already installed, clicking the hyperlink populates the **Costpoint Mobile T&E Server URL** field with your company URL.

Unable to Login Again Using Third-party Authentication after Canceling Face ID Login

Defect 1233315

Description: When you selected to log into the application using Face ID and then tapped **Cancel** on the PIN or Biometric Authentication screen, Costpoint Mobile T&E would not allow you to log into the application again using your third-party authentication login credentials.

Customers Impacted: This defect affects all Costpoint Mobile T&E in the Cloud users.

Workaround Before Fix: On the Server URL page, enter the Costpoint Mobile T&E URL and reconnect.

Additional Notes: None.

Erroneous Message Displayed When Logging Into the Application for the First Time

Defect 1230203

Description: When you logged into the Costpoint Mobile T&E application version 1.0.7 for the first time, the application would display an erroneous message.

Customers Impacted: This defect affects all Costpoint Mobile T&E in the Cloud users.

Workaround Before Fix: None.

Additional Notes: None.

Error Displayed When Navigating to the Next Timesheet to Approve

Defect 1230354

Description: When you approved a timesheet on the **Tasks » Approve Timesheet** screen and then tapped the next timesheet to approve, the Costpoint Mobile T&E application would encounter an error.

Customers Impacted: This defect affects all Costpoint Mobile T&E in the Cloud users.

Workaround Before Fix: None.

Additional Notes: None.

Incorrect Date Format in Summary View if Language and Country of the Device is set to English UK and United Kingdom

Defect 1223397

Description: If the language and region settings on your device were set to **English UK** and **United Kingdom**, the Summary view would display incorrect date format.

Customers Impacted: This defect affects all Costpoint Mobile T&E in the Cloud users.

Workaround Before Fix: None.

Additional Notes: None.

Unable to Log out if Network Failed and You are Logged into the Costpoint Mobile T&E Application

Defect 1210483

Description: If your network connection failed while you were still logged into the Costpoint Mobile T&E application, you would not be able to log out.

Customers Impacted: This defect affects all Costpoint Mobile T&E in the Cloud users.

Workaround Before Fix: None.

Additional Notes: None.

Unable to Tap a Line in Summary View if Device is set to a Region other than United States

Defect 1213677

Description: If your device was set to a region other than United States, the Costpoint Mobile T&E application would not respond when you tapped any line in the Summary view.

Customers Impacted: This defect affects all Costpoint Mobile T&E in the Cloud users.

Workaround Before Fix: None.

Additional Notes: None.

Apple App Store Opens When Clicking the Email Link Even if the Costpoint Mobile T&E is Already Installed

Defect 1212072

Description: When you clicked the email link, the Apple App Store would open even if you already installed the Costpoint Mobile T&E application.

Customers Impacted: This defect affects users who run Costpoint Mobile T&E in the Cloud on iOS devices.

Workaround Before Fix: None.

Additional Notes. The email link screen has been updated and now contains two hyperlinks. The first hyperlink directs you to the appropriate app store, where you can download the application, if it is not yet installed. The second hyperlink populates the **Costpoint Mobile T&E Server URL** field with your company URL.

Costpoint Mobile T&E 1.0 in the Cloud

Cumulative Update 05

This cumulative update applies to Costpoint Mobile T&E application 1.0.6 and Costpoint Mobile T&E Server 1.0.6.

Released: November 18, 2019

New Features and Enhancements

This section includes summaries of the new features and enhancements included for this release.

Support for PHP 7.3.10

The Costpoint Mobile T&E Server has been upgraded to support PHP 7.3.10.

Apache Cordova Upgrade

Cordova version 5.0.1 for iOS is now used with the Costpoint Mobile T&E 1.0.6 application.

Installation Wizard Update

The License Agreement page of the Installation wizard has been removed.

Secure Storage Plugin Update

The Secure Storage plugin, which is used in native applications, has been updated. This plugin interacts with the device secure storage, such as keychain and keystore, where user credentials are stored.

Software Issues Resolved

This section includes summaries of the software issues resolved included for this release.

Error in Day View When Adding a Charge to Favorite in the Timesheet Line View

Defect 1200963

Description: When you added a new timesheet line, tapped a charge that was not a favorite, tapped the **Favorite** field to **On**, and tapped **Done**, the Timesheet Line view would close and a "null indicator" pop-up message would display in the Day view. The charge was also added to the Favorites list.

Customers Impacted: This defect affects all Costpoint Mobile T&E in the Cloud users.

Workaround Before Fix: None.

Additional Notes: None.

Timesheet Details Not Displayed in the Timesheet Search for Users with Multiple Functional Roles

Defect 1196434

Description: When the timesheet search results contained a user with multiple functional roles, the Review screen would not display the timesheet details.

Customers Impacted: This defect affects all Costpoint Mobile T&E in the Cloud users.

Workaround Before Fix: None.

Additional Notes: None.

Timesheet Search Results Display Was Limited to 100 Records Only

Defect 1196426

Description: The Costpoint Mobile T&E application was set to return up to 100 records only after you performed a timesheet search.

Customers Impacted: This defect affects all Costpoint Mobile T&E in the Cloud users.

Workaround Before Fix: None.

Additional Notes: None.

Blank Summary Screen When Display Non-Work Days Field Was Set to Off

Defect 1198948

Description: When the **Display Non-Work Days** field on the Settings screen was set to **Off**, the Summary screen would not display the timesheet details on the Day, Charge, and Pay Type tabs.

Customers Impacted: This defect affects all Costpoint Mobile T&E in the Cloud users.

Workaround Before Fix: None.

Additional Notes: None.

Unable to Login but the Application Did not Display Any Error

Defect 1182357

Description: The Costpoint Mobile T&E application would not display any error even if it did not allow you to log in.

Customers Impacted: This defect affects all Costpoint Mobile T&E in the Cloud users.

Workaround Before Fix: Assume that there is a login failure and check the log.

Additional Notes: None.

Costpoint Mobile T&E 1.0 in the Cloud

Cumulative Update 04

This cumulative update applies to Costpoint Mobile T&E application 1.0.5 and Costpoint Mobile T&E Server 1.0.5.

Released: September 20, 2019

New Features and Enhancements

This section includes summaries of the new features and enhancements included for this release.

Apache Cordova Upgrade

Cordova 9.0.0 version 8.0 for Android is now used with the Costpoint Mobile T&E 1.0.5 application.

Software Issues Resolved

This section includes summaries of the software issues resolved included for this release.

Keyboard Display Scrolls off the Screen When Performing a Timesheet Search

Defect 1171005

Description: When you performed a timesheet search, tapped the **Last Name** field, and entered text, the keyboard display would cause the Search icon on the top right to scroll off the screen, requiring you to scroll down in order to see and tap the Search icon.

Customers Impacted: This defect affects users who run Costpoint Mobile T&E in the Cloud on specific iOS devices.

Workaround Before Fix: Scroll down to see the Search icon.

Additional Notes: None.

Email Link not Working for Cloud Users

Defect 1172019

Description: The email link would not work properly because one point of delivery (POD) have multiple companies while the configuration.ini file only has one client URL.

Customers Impacted: This defect affects all Costpoint Mobile T&E in the Cloud users.

Workaround Before Fix: None.

Additional Notes: None.

No Error for Invalid Credentials During Login

Defect 1175668

Description: When you logged into the Costpoint Mobile T&E application using invalid credentials, the application would not return errors.

Customers Impacted: This defect affects all Costpoint Mobile T&E users.

Workaround Before Fix: None.

Additional Notes: None.

Costpoint Mobile T&E in the Cloud 1.0

Cumulative Update 03

This cumulative update applies to Costpoint Mobile T&E application 1.0.4 and Costpoint Mobile T&E Server 1.0.4.

Released: August 19, 2019

New Features and Enhancements

This section includes summaries of the new features and enhancements included for this release.

PHP Upgrade

PHP version 7.3.8, which provides updated security, is now packaged with Costpoint Mobile T&E Server 1.0.4. To use and install the updated version, you must first uninstall your current Costpoint Mobile T&E Server.

Support for Android Q

Costpoint Mobile T&E now supports mobile devices that run on Android Q.

Software Issues Resolved

This section includes summaries of the software issues resolved included for this release. There are no software issues resolved in this release.

Costpoint Mobile T&E in the Cloud 1.0

Cumulative Update 02

This cumulative update applies to Costpoint Mobile T&E application 1.0.3 and Costpoint Mobile T&E Server 1.0.2.

Released: July 24, 2019

New Features and Enhancements

This section includes summaries of the new features and enhancements included for this release. There are no new features and enhancements in this release.

Software Issues Resolved

This section includes summaries of the software issues resolved included for this release

Unable to Login for Employee without Manage/Approve Timesheets Rights

Defect 1152472

Description: If you were an employee (resource) without rights configured on the Manage/Approve Timesheets screen, you would not be able to log into the Costpoint Mobile T&E application.

Customers Impacted: This defect affects all Costpoint Mobile T&E in the Cloud users.

Workaround Before Fix: None.

Additional Notes: None.

Costpoint Mobile T&E in the Cloud 1.0 Cumulative Update 01

This cumulative update applies to Costpoint Mobile T&E 1.0.2 and Costpoint Mobile T&E Server 1.0.2.

Released: July 18, 2019

New Features and Enhancements

This section includes summaries of the new features and enhancements included for this release. There are no new features and enhancements in this release.

Software Issues Resolved

This section includes summaries of the software issues resolved included for this release

[Incorrect App ID for Costpoint Mobile T&E in the Apple App Store](#)

Defect 1140668

Description: The cptimeurl.php file contained the incorrect app ID for Costpoint Mobile T&E in the Apple App Store. The app ID should be https://apps.apple.com/app/id1458128677.

Customers Impacted: This defect affects all Costpoint Mobile T&E in the Cloud users.

Workaround Before Fix: None.

Additional Notes: None.

[Unable to Login for Employee without Manage/Approve Timesheets Rights](#)

Defect 1140689

Description: If you were an employee (resource) without rights configured on the Manage/Approve Timesheets screen, you would not be able to log into the Costpoint Mobile T&E application.

Customers Impacted: This defect affects all Costpoint Mobile T&E in the Cloud users.

Workaround Before Fix: None.

Additional Notes: None.

[User Information Logged onto the Touch Server on Debug Mode](#)

Defect 1145889

Description: User information (such as User ID and password) was logged onto the Touch server in debug mode.

Customers Impacted: This defect affects all Costpoint Mobile T&E in the Cloud users.

Workaround Before Fix: None.

Additional Notes: None.

Appendix A: For Additional Information

Deltek Support Center

The Deltek Support Center is a support Web site for Deltek customers who purchase an Ongoing Support Plan (OSP).

The following are some of the many options that the Deltek Support Center provides:

- Search for product documentation, such as release notes, install guides, technical information, online help topics, and white papers
- Ask questions, exchange ideas, and share knowledge with other Deltek customers through the Deltek Support Center Community
- Access Cloud-specific documents and forums
- Download the latest versions of your Deltek products
- Search Deltek's knowledge base
- Submit a support case and check on its progress
- Transfer requested files to a Customer Care analyst
- Subscribe to Deltek communications about your products and services
- Receive alerts of new Deltek releases and hot fixes
- Initiate a Chat to submit a question to a Customer Care analyst online

Attention: For more information regarding Deltek Support Center, refer to the online help available from the Web site.

Access Deltek Support Center

To access the Deltek Support Center:

1. Go to <https://deltek.custhelp.com>.
2. Enter your Deltek Support Center **Username** and **Password**.
3. Click **Login**.

Note: If you forget your username or password, you can click the **Need Help?** button on the login screen for help.

Available Documentation for this Release

The following table lists the Deltek documentation available for this release. Except where noted, all the user guides and quick reference guides listed in this table are available for download from the Deltek Support Center.

Document Name	Description
<i>Deltek Costpoint Mobile Time and Expense Cloud User Guide</i>	This document contains detailed information and instructions on how to use various features of the application.
<i>Deltek Costpoint Mobile Time and Expense Cloud Administrator Guide</i>	This document provides instructions for the configuration of the application.

About Deltek

Better software means better projects. Deltek delivers software and information solutions that enable superior levels of project intelligence, management and collaboration. Our industry-focused expertise makes your projects successful and helps you achieve performance that maximizes productivity and revenue. www.deltek.com
