

# Deltak Costpoint HotFix Readme

*Released: December 30, 2015*

## Enhancements

### Multicurrency Leave Reconciliation – Average Functional Rate Enhancement on Post Timesheets Screen

The Multicurrency Leave functionality in Costpoint now supports the ability to calculate currency gains and losses when the employee's currency changes. As part of this feature, this release includes the following updates to the Post Timesheets screen:

- The application now uses a more accurate method of determining gains and losses which is being implemented on Reconcile Leave Balances screen.
- The process now posts gains and losses as separate rows to the View Leave History (EMPL\_LV\_HIST) table to allow for better tracking
- The process now populates the new **Average Functional Rate** column on the Manage Beginning Balances (EMPL\_LV\_BAL) table
- The process now populates the new **Average Functional Rate** column on the View Leave History (EMPL\_LV\_HIST) table

This Multicurrency Leave Reconciliation enhancement involves updates to multiple applications which are released in different dates. This feature will be functional when enhancements to all affected applications are available.

---

### Patch Requirements

These enhancements require the Costpoint 7.1.1 PATCH2703 and PATCH2780.

### Application JAR Requirements

The following table shows the required application JAR version for each screen affected by this update:

Domain	Module	Application ID	Application Name	Application JAR
PE	LD	LDPLDJ	Post Timesheets	cp711_ldpldj_003.jar

More information about this release is on the following page.

## Custom Programs Affected:

Sometimes an update can cause custom programs and reports to stop working as expected. Before applying this update, consider whether you have any custom programs or reports in the application area affected by the update. If so, contact Deltek Customer Care at <http://support.deltek.com> before you install the update.

## To Download the HotFix Update:

1. From Internet Explorer, go to <https://dsm.deltek.com>.
2. Click **Run Deltek Software Manager**.
3. Log in using your Deltek Customer Care Connect credentials.
4. In the left pane of the Deltek Software Manager, expand your Deltek product.
5. Expand the Hot Fixes folder for your product, and select the update to download.
6. Click **Download** at the bottom of the screen.

## To Install the HotFix Update:

Refer to the installation instructions posted on Deltek's Customer Care Connect site, <https://deltek.custhelp.com>.

- For Costpoint 7.1.1 updates, refer to Knowledge Base article 79232.
- For Costpoint 7.0.1 updates, refer to Knowledge Base article 73769.
- For Costpoint 7.0 updates, refer to Knowledge Base article 67722.

Before you install this update, please review all previous updates in the Knowledge Base article. You may need to install prerequisite programs or database patches (described in the Knowledge Base article) prior to installing this update. Note that when you download an update using Deltek Software Manager (DSM), all dependent files are automatically downloaded.

## To Check to See if the HotFix is Installed:

1. Open the application that was updated.
2. Click **Help > About Costpoint** from the Costpoint toolbar. This will display a screen that shows you the latest update JAR for the application that is open, as well as the latest system JAR and all patches applied to the system.

## More Information:

If you have any questions, please contact Deltek Customer Care at <https://support.deltek.com>.
