Hot Fix: cp711_ldpexpm_015.zip

PEOPLE/LABOR/LDPEXPM/Export Project Manufacturing Data

Deltek Defect Tracking Number:

1110994

Issues Resolved:

Description: After removing a collected part in MES, when you issued a new serial/lot number and ran the export process, the application exported both the original and new number to MES.

Customers Impacted: This defect affects Costpoint Manufacturing Execution users.

Workaround Before Fix: Use the DI work order process.

Additional Notes: None.

PEOPLE/LABOR/LDPEXPM/Export Project Manufacturing Data

Deltek Defect Tracking Number:

1132847

Issues Resolved:

Description: Exporting BOMs with phantom parts did not work correctly because the application sent the lower level phantom BOMs out of order to Manufacturing Execution (MES).

Customers Impacted: This defect affects Costpoint MES users.

Workaround Before Fix: Create each level of a multi-level BOM by starting at the lowest level BOM first and export each level to MES.

Additional Notes: The export worked correctly when you exported the phantom BOMs from lowest level to upper level. After you apply the hot fix, if the application still does not create BOMs starting from the upper level to the lowest level, then you must run the Low Level Code utility in Costpoint before the export process.
