

## Vision HotFix Notes

**Released: November 01, 2013**

**Release Name: Cumulative Update #009**

### Software Issues Resolved (8)

#### Accounting

##### Accounts Payable

###### Payment Processing

**Deltek Defect Tracking Number:** 395287

**Description:** Accounts Payable check payment processing took a long time to complete.

**Customers Impacted:** This defect applies to Vision 7.0 and later versions.

**Workaround Before Fix:** None.

**Additional Notes:** None.

###### Files Updated

Deltek.Vision.APPaymentProcess.Client.dll

Deltek.Vision.APPaymentProcess.Server.dll

###### Other Applications Affected

###### System File Dependencies

#### Billing

##### Interactive Billing

**Deltek Defect Tracking Number:** 394265

**Description:** If you did a partial transfer of a PWP voucher line in Interactive Billing for a voucher with an unpaid balance, it resulted in an incorrect payment amount in an automatic payment run. To prevent this problem from occurring, a message (see "Additional Notes" below) now displays to warn you of the consequences of making the partial transfer. The message also recommends alternative actions. Click **No** in the message box to cancel the transfer, or click **Yes** if you still want to make the transfer.

**Customers Impacted:** This defect applies to Vision 6.1 SP4 and later versions.

**Workaround Before Fix:** Either modify the original voucher in Transaction Entry, or process a manual payment for the voucher.

**Additional Notes:** Message text: "Warning: A partial transfer of this PWP voucher line will result in an incorrect payment amount in an automatic payment run. You should either modify the original voucher in transaction entry or process a manual payment for this voucher. Do you want to continue with this partial transfer?"

#### Files Updated

Deltek.Vision.interactiveBilling.Client.dll

#### Other Applications Affected

#### System File Dependencies

**Deltek Defect Tracking Number:** 395770

**Description:** This applies for projects that require invoice approvals. If you installed Vision 7.1 Cumulative Update (Hot Fix) 008 and then performed an approval action for an invoice (such as submitting an invoice), you received an error when you later accepted the invoice.

**Customers Impacted:** This defect applies to Vision 7.1, only after you install Vision 7.1 Cumulative Update (Hot Fix) 008.

**Workaround Before Fix:** None.

**Additional Notes:**

**Database Changes:** Added an update to the InvoiceApproval.SubmitReturnString column to fix incorrect data values (if they exist).

#### Files Updated

Deltek.Vision.Billing.Server.dll

#### Other Applications Affected

#### System File Dependencies

## Reporting

### Project

**Deltek Defect Tracking Number:** 356271

**Description:** In some cases, the Project Progress report contained blank pages when you displayed it in Print Layout mode in the Preview window or downloaded it as a .PDF file.

**Customers Impacted:** This defect applies to Vision 7.0 SP1 and later versions.

**Workaround Before Fix:** Do either of the following:

- Increase the **Left Margin for First Column** option on the Columns tab of the Options dialog box to 2.5in. Make sure this left margin, plus the widths of all the columns selected, is 7.5 inches or less.
- If you want to keep the left margin at less than 2.476 inches (default is 1.59), make sure sum of the widths of all the columns selected is between 5.6 and 5.748 inches.

**Additional Notes:** None.

#### **Files Updated**

Deltek.Vision.ReportingProject.Server.dll

#### **Other Applications Affected**

#### **System File Dependencies**

**Deltek Defect Tracking Number:** 391906

**Description:** When you generated the Project Detail report or the Project Progress report with **Page Break By Project** checkbox selected in the Options dialog box, the report did not have a page break after every project.

**Customers Impacted:** This defect applies to Vision 7.0 and later versions.

**Workaround Before Fix:** On the Sorting/Grouping tab of the Options dialog box, select the **Page Break** check box for **Project Number**.

**Additional Notes:** None.

#### **Files Updated**

Deltek.Vision.ReportingProject.Server.dll

#### **Other Applications Affected**

#### **System File Dependencies**

### **Visualization**

**Deltek Defect Tracking Number:** 382739

**Description:** After you upgraded to Vision 7.1, all Visualization reports had a "Panopticon Evaluation Version" watermark on them.

**Customers Impacted:** This defect applies to Vision 7.1.

**Workaround Before Fix:** None.

**Additional Notes:** None.

#### Files Updated

DeltekVision.exe

#### Other Applications Affected

#### System File Dependencies

## Resource Kit

**Deltek Defect Tracking Number:** 395397

**Description:** If you are not using organizations in Vision, you received errors when you published the sample Vision Performance Management workbooks (performance dashboards). To correct this defect, the publishing process has been modified to not publish workbooks that require the presence of organizations. Those workbooks are listed below under "Additional Notes."

**Customers Impacted:** This defect applies to customers using the Vision Performance Management Edition of Performance Management in Vision 7.1.

**Workaround Before Fix:** None.

**Additional Notes:** If your database has no organizations, the following are no longer included when you publish the sample workbooks:

- Organization Manager Sample - Days Outstanding Metrics
- Organization Manager Sample - Project Status
- Organization Manager Sample - Accounts Receivable Trending
- Organization Manager Sample - Opportunity Wins and Projections
- Organization Manager Sample - Pipeline Revenue
- Organization Manager Sample - Charts at Cost
- Organization Manager Sample - Charts at Billing
- Organization Manager Sample - Profit Drilldown
- Organization Manager Sample - Variance Drilldown
- Resource Manager Sample - Pipeline Revenue
- Resource Manager Sample - Opportunity Wins and Projections
- Resource Manager Sample - Utilization and Realization

**Database Changes:** Updated the AddDefaultKPI stored procedure.

#### Files Updated

DeltekVisionHelper.dll

DeltekVisionResourceKit.exe

sp\_AddDefaultKPI.sql

#### Other Applications Affected

## **System File Dependencies**

### **Transaction Center**

#### **Transaction Entry and Transaction Posting**

**Deltek Defect Tracking Number:** 394435

**Description:** Posted units were displayed as unposted with timesheet transactions. When the timesheets were reposted, duplicate unit transaction files were created and posted.

**Customers Impacted:** This defect applies to Vision 7.1.

**Workaround Before Fix:** To work around this issue, you must unpost the duplicate units that were already posted. In addition, you must continue to manually delete the duplicate unit transaction file (with the original TS PS# reference) before posting.

**Additional Notes:** None.

#### **Files Updated**

Deltek.Vision.PostingUndo.Server.dll

#### **Other Applications Affected**

## **System File Dependencies**

More information about this release is on the following page.

## Custom Programs Affected:

Sometimes a hot fix can cause custom programs and reports to stop working as expected. Before applying this hot fix, consider whether you have any custom programs or reports in the application area affected by the hot fix. If so, contact Deltek support at <http://support.deltek.com> before you install the hot fix.

## To Download the HotFix:

1. From Internet Explorer, go to <https://dsm.deltek.com>.
2. Click **Run Deltek Software Manager**.
3. Log in using your Deltek Customer Care Connect credentials.
4. In the left pane of the Deltek Software Manager, expand your Deltek product.
5. Expand the Hotfix folder for your product, and select the hotfix to download.
6. Click **Download** at the bottom of the screen.

## To Install the HotFix:

Run the executable (.exe) file only on your application server, unless additional tiers are specifically noted in the defect descriptions above. <?xml:namespace prefix = o ns = "urn:schemas-microsoft-com:office:office" />

## To Check to See if the HotFix is Installed:

1. Click **Help > About** from the Vision toolbar.
2. Click the **Details** button on the **About Deltek Vision** dialog box.

## More Information:

If you have any questions, please contact Deltek support at <https://support.deltek.com>
