

Vision HotFix Notes

Released: August 09, 2013

Release Name: Cumulative Update #003

Software Issues Resolved (8)

Accounting

Employee Expenses

Payment Processing

Deltek Defect Tracking Number: 383425

Description: You received an error message when you processed an expense report payment that had a net zero or negative amount.

Customers Impacted: This defect applies to Vision 7.1.

Workaround Before Fix: If possible, make the payment with another expense report that will bring the net greater than zero.

Additional Notes: None.

Files Updated

Deltek.Vision.EMPaymentProcess.Client.dll

Other Applications Affected

System File Dependencies

Revenue

Revenue Generation

Deltek Defect Tracking Number: 379704

Description: You received an error when you ran Revenue Generation if a project was dormant and had invoices that totaled to zero.

Customers Impacted: This defect applies to Vision 7.0 SP1 and later.

Workaround Before Fix: Set the revenue method to None for the project (at the appropriate work breakdown structure level).

Additional Notes: None.

Files Updated

Deltek.Vision.RevenueGeneration.Server.dll

Other Applications Affected

System File Dependencies

Billing

Batch Billing

Deltek Defect Tracking Number: 384338

Description: When you generated invoices in Batch Billing, invoices with more than one page displayed the correct invoice number on the first page but displayed the invoice number of the first invoice in the batch on subsequent pages.

Customers Impacted: This defect applies to Vision 7.1.

Workaround Before Fix: None.

Additional Notes: None.

Files Updated

Deltek.Vision.Billing.Server.dll

Other Applications Affected

System File Dependencies

Help

Deltek Defect Tracking Number: 383215

Description: The "Welcome to the Deltek Vision Help System" topic, the first topic that you see when you open the online Help in Vision, now contains a link to the Vision 7.1 Online Help Updates documentation (DeltekVision71EnhancementsOnlineHelp.pdf). This file contains the new and updated help topics for the 7.1 enhancements. The online Help in Vision 7.1 is the Help from Vision 7.0 SP1 and does not include the new 7.1 help. We are currently in the process of converting to a new Help system that uses a new robust tool that will allow Deltek to update the Help constantly to provide you with the most current and accurate Vision Help system that is easier to navigate and use. The "Welcome to the Deltek Vision Help System" topic also has a link to the Vision 7.1 Release Notes.

Customers Impacted: This applies to all Vision 7.1 users.

Workaround Before Fix: None.

Additional Information: In addition to accessing the Vision 7.1 Enhancements Online Help PDF file from the "Welcome to the Deltek Vision Help System" topic in Vision, you can also download the file from the Deltek Customer Care Connect site from Knowledge Base article 74449 or from the Deltek Software Manager (DSM) when you download the 7.1 software.

Files Updated

WelcomeTopic.htm

Other Applications Affected

System File Dependencies

Navigation Tree

Deltek Defect Tracking Number: 382267

Description: Even though FILESTREAM was enabled in Weblink, the Files Administration menu was not available to Roles that had Full Access to all menu items.

Customers Impacted: This issue applied to Vision 7.1.

Workaround Before Fix: None.

Additional Notes: None.

Files Updated

navigationMenu.xml

Other Applications Affected

System File Dependencies

Navigator

Deltek Defect Tracking Number: 381132

Description: Navigator populated an invalid labor code when the labor code delimiter (CFGFormat.LCDelimiter) was set to NULL.

Customers Impacted: This defect applies to Vision Navigator.

Workaround Before Fix: None.

Additional Notes: None.

Files Updated

Deltek.Vision.VisionServices.Server.dll

Other Applications Affected

System File Dependencies

Performance Management Canvases

Deltek Defect Tracking Number: 382343

Description: When you logged on to Vision and did not have an Employee record in Vision, you would not be able to add or view Performance Management workbooks that had the org-is-mine auto filter.

Customers Impacted: This defect applies to Vision 7.1.

Workaround Before Fix: Either temporarily associate the login user to an employee, or get the workbook's URL, remove the query string for the org-is-mine auto filter, and then use the amended URL to add a URL dashpart. To get the workbook's URL, click the down arrow beside the dashpart name in the upper left corner of the dashpart heading, and then click **Open in New Window**.

Additional Notes: None.

Files Updated

Deltek.Vision.Dashboard.Server.dll

Other Applications Affected

System File Dependencies

Utilities

Deltek Defect Tracking Number: 381616

Description: During the database merge process, you received a Framework Exception error ("Violation of PRIMARY KEY constraint 'FW_CFGUserSettingsDataPK'. Cannot insert duplicate key in object 'dbo.FW_CFGUserSettingsData'...") if the two databases contained the same User Settings record.

Customers Impacted: This defect applies to Vision 7.0 SP1 and later.

Workaround Before Fix: None.

Additional Notes: None.

Files Updated

Deltek.Vision.ImportUtility.Server.dll

Other Applications Affected

System File Dependencies

More information about this release is on the following page.

Custom Programs Affected:

Sometimes a hot fix can cause custom programs and reports to stop working as expected. Before applying this hot fix, consider whether you have any custom programs or reports in the application area affected by the hot fix. If so, contact Deltek support at <http://support.deltek.com> before you install the hot fix.

To Download the HotFix:

1. From Internet Explorer, go to <https://dsm.deltek.com>.
2. Click **Run Deltek Software Manager**.
3. Log in using your Deltek Customer Care Connect credentials.
4. In the left pane of the Deltek Software Manager, expand your Deltek product.
5. Expand the Hotfix folder for your product, and select the hotfix to download.
6. Click **Download** at the bottom of the screen.

To Install the HotFix:

Run the executable (.exe) file on your application server.

To Check to See if the HotFix is Installed:

1. Click **Help > About** from the Vision toolbar.
2. Click the **Details** button on the **About Deltek Vision** dialog box.

More Information:

If you have any questions, please contact Deltek support at <https://support.deltek.com>
