## PJ/PJ/PJPPREP/Upload Project Information

Deltek Defect Tracking Number:

721157

Issues Resolved:

**Description:** When you uploaded modifications, Costpoint set the start date in the PROJ table to the earliest start date, and the end date to the latest end date.

**Customers Impacted:** This defect affects Costpoint users.

**Workaround Before Fix:** None.

**Additional Notes:** This application now updates the period of performance dates in the PROJ table based on the selections made in the new group box, **Period of Performance Start and End Dates**, in Configure Project Settings. See Bug 726886 for more information on how these flags affect the update of the POP dates. This requires PATCH3124.

## PJ/PJ/PJMSETNG/Project Settings

Deltek Defect Tracking Number:

726886

Issues Resolved:

**Description:** When you uploaded modifications, Costpoint set the start date in the PROJ table to the earliest start date, and the end date to the latest end date.

**Customers Impacted:** This defect affects Costpoint users.

**Workaround Before Fix:** None.

**Additional Notes:** To address this defect, two drop-down lists have been added to this screen to give you options in updating the period of performance (POP) start and end dates:

- Update POP Start Date based on earliest Start Date From - Select All Modifications to update the POP start date using the earliest start date out of all applicable projects' modification starting dates, or Only mods with latest effective dates to update the POP start date using the earliest start date out of the modifications with the most recent effective dates for each applicable project at or below the level of the project being updated.
- Update POP End Date based on latest End date From - Select All Modifications to update the POP end date using the latest ending date out of all applicable projects' modification ending dates, or Only mods with latest effective dates to update the POP end date using the latest ending date out of the modifications with the most recent effective dates for each applicable project at or below the level of the project being updated.

This requires PATCH3124.

## PJ/PJ/PJPPOP/Update Period of Performance

**Deltek Defect Tracking Number:**

726891

**Issues Resolved:**

**Description:** When you uploaded modifications, Costpoint set the start date in the PROJ table to the earliest start date, and the end date to the latest end date.

**Customers Impacted:** This defect affects Costpoint users. **Workaround Before Fix:** None.

**Additional Notes:** To address this defect, a new drop-down list, **Update POP Start Date based on earliest Start Date From**, has been added to this screen. By default, this displays the selection made in the same field on the Configure Project Settings screen. The already existing **Update POP End Date based on latest End Date From** drop-down list now also reflects the selection made in the same field in Configure Project Settings. Both of these options are editable. See Bug 726886 for more information on how these flags affect the update of the POP dates. This requires PATCH3124.

**Custom Programs Affected:**

Sometimes a hot fix can cause custom programs and reports to stop working as expected. Before applying this hot fix, consider whether you have any custom programs or reports in the application area affected by the hot fix. If so, contact Deltek support at <https://deltek.custhelp.com> before you install the hot fix.

**To Download the Hot Fix:**

1. From Internet Explorer, go to <https://dsm.deltek.com>.
2. Click Run Deltek Software Manager.
3. Log in using your Deltek Customer Care Connect credentials.
4. In the left pane of the Deltek Software Manager, expand your Deltek product.
5. Expand the Hotfix folder for your product, and select the hotfix to download.
6. Click Download at the bottom of the screen.

**More Information:**

If you have any questions, please contact Deltek support at <https://deltek.custhelp.com>.
