PJ/SM/SMMMINVC/Manage Subcontractor Invoices

Deltek Defect Tracking Number:

1155840

Issues Resolved:

Description: A new logic has been added to this application to look at the **Recalculate Detail Rows** check box (on the Configure Purchase Order Voucher Settings screen) for Costpoint to recalculate all detail subcontractor agreement invoice rows so that they match the current invoiced amount displayed on the summary invoice. This applies only if the user changes the labor rate and a recalculation is done; Costpoint will not automatically recalculate invoice rows if the labor rate is not changed.
Customers Impacted: This change affects you if you use Manage Subcontractor Invoices in Costpoint.
Workaround Before Fix: None.
Additional Notes: None.
