Deltek Costpoint HotFix Readme

Released: May 23, 2016

Enhancements

Remove the Ability to Export SSN from Costpoint 7.1.1 to Time & Expense 9.x or 10.x

The ability to export the social security numbers of employees from Costpoint 7.1.1 to Time & Expense versions 9.x or 10.x was removed. The following are the changes to the Export Data to Deltek Time and Expense screen:

- The screen layout and functionality of the Resource Information Tab was updated so that you can only view and use the **Government ID Options** group box, and its options, if the Time & Expense version is **8.3**.
- The application was updated to populate the **Government ID** field in the Employee (EMPL) file based on the following logic:
    - If Time & Expense version is **8.3**, the application will use the option selected in the **Government ID Options** group box to populate the **Government ID** field.
    - If Time & Expense version is **10.x**, the application will populate **Government ID** field with no value (NULL).
    - If Time & Expense version is **9.x**, the application will populate **Government ID** field with employee's birth date.

Application JAR Requirements

The following table shows the required application JAR version for each screen affected by this update:

Domain	Module	Application ID	Application Name	Application JAR
PE	LD	LDPDTC	Export Data to Deltek Time and Expense	cp711_ldpdtc_007.jar

More information about this release is on the following page.

Custom Programs Affected:

Sometimes an update can cause custom programs and reports to stop working as expected. Before applying this update, consider whether you have any custom programs or reports in the application area affected by the update. If so, contact Deltek Customer Care at http://support.deltek.com before you install the update.

To Download the HotFix Update:

1. From Internet Explorer, go to https://dsm.deltek.com.
2. Click **Run Deltek Software Manager**.
3. Log in using your Deltek Customer Care Connect credentials.
4. In the left pane of the Deltek Software Manager, expand your Deltek product.
5. Expand the Hot Fixes folder for your product, and select the update to download.
6. Click **Download** at the bottom of the screen.

To Install the HotFix Update:

Refer to the installation instructions posted on Deltek's Customer Care Connect site, https://deltek.custhelp.com.

- For Costpoint 7.1.1 updates, refer to Knowledge Base article 79232.

- For Costpoint 7.0.1 updates, refer to Knowledge Base article 73769.

- For Costpoint 7.0 updates, refer to Knowledge Base article 67722.

Before you install this update, please review all previous updates in the Knowledge Base article. You may need to install prerequisite programs or database patches (described in the Knowledge Base article) prior to installing this update. Note that when you download an update using Deltek Software Manager (DSM), all dependent files are automatically downloaded.

To Check to See if the HotFix is Installed:

1. Open the application that was updated.
2. Click **Help** > **About Costpoint** from the Costpoint toolbar. This will display a screen that shows you the latest update JAR for the application that is open, as well as the latest system JAR and all patches applied to the system.

More Information:

If you have any questions, please contact Deltek Customer Care at https://support.deltek.com.
