

# Deltak Costpoint HotFix Readme

*Released: December 11, 2015*

## Enhancements

### Transfer HRsmart Data – Email and Login ID Update

The Costpoint – HRsmart Talent Management Integration now includes updated email address and login ID logic to support employees without work email addresses. This enhancement applies the updated logic in the following HRsmart destination fields:

- **user\_email** — Use work email (EMPL.email\_ID). If the employee has no work email, then the integration will populate this field with the employee's home email (EMPL.home\_email\_id), if available.
- **user\_login** — Use work email (EMPL.email\_ID). If the employee has no work email, then the integration will populate this field with the employee's home email (EMPL.home\_email\_id), if available.

### Application JAR Requirements

The following table shows the required application JAR version for each screen affected by this update:

| Domain | Module | Application ID | Application Name      | Application JAR         |
|--------|--------|----------------|-----------------------|-------------------------|
| PE     | EM     | EMPHRSDAT      | Transfer HRsmart Data | cp711_emphrsdat_003.jar |

More information about this release is on the following page.

## Custom Programs Affected:

Sometimes an update can cause custom programs and reports to stop working as expected. Before applying this update, consider whether you have any custom programs or reports in the application area affected by the update. If so, contact Deltek Customer Care at <http://support.deltek.com> before you install the update.

## To Download the HotFix Update:

1. From Internet Explorer, go to <https://dsm.deltek.com>.
2. Click **Run Deltek Software Manager**.
3. Log in using your Deltek Customer Care Connect credentials.
4. In the left pane of the Deltek Software Manager, expand your Deltek product.
5. Expand the Hot Fixes folder for your product, and select the update to download.
6. Click **Download** at the bottom of the screen.

## To Install the HotFix Update:

Refer to the installation instructions posted on Deltek's Customer Care Connect site, <https://deltek.custhelp.com>.

- For Costpoint 7.1.1 updates, refer to Knowledge Base article 79232.
- For Costpoint 7.0.1 updates, refer to Knowledge Base article 73769.
- For Costpoint 7.0 updates, refer to Knowledge Base article 67722.

Before you install this update, please review all previous updates in the Knowledge Base article. You may need to install prerequisite programs or database patches (described in the Knowledge Base article) prior to installing this update. Note that when you download an update using Deltek Software Manager (DSM), all dependent files are automatically downloaded.

## To Check to See if the HotFix is Installed:

1. Open the application that was updated.
2. Click **Help > About Costpoint** from the Costpoint toolbar. This will display a screen that shows you the latest update JAR for the application that is open, as well as the latest system JAR and all patches applied to the system.

## More Information:

If you have any questions, please contact Deltek Customer Care at <https://support.deltek.com>.
