**MATERIALS/INVENTORY/INPPCDSC/Print Discrepancy Report and Create Adjustments**

Deltek Defect Tracking Number:

776896

Issues Resolved:

**Description**: The Create Physical Count Adjustments screen has been modified to implement the following updates:

- Change the warehouse lookup to include the same lookup as the count ID lookup, count ID, warehouse, count date, and active flag.
- Change the count lookup to only show counts for that warehouse, if the warehouse is entered.

**Customers Impacted**: This change affects users who use the same Count ID for different Warehouses.
**Workaround Before Fix**: Manually change the value back to the previous value or do a lookup of the count and choose the correct count for that warehouse.
**Additional Notes**: None.
