**Deltek Defect Tracking Number:**

**Issues Resolved:**

**Description:** The revenue was posted at the performing organization and the organization history table was blank (that is, organization tracking was turned off). When you changed the organization and recomputed revenue, the total in excess displayed twice in the PROJ\_SUM table, resulting in incorrect revenue. The first total was included in the old organization, while the second total was included in the new organization.

**Customers Impacted:** This defect affects Costpoint users.

**Workaround Before Fix:** Clear the PROJ\_SUM table and recompute revenue using the new organization.
