ACCOUNTING/MULTICURRENCY/GLMCURR/Maintain Currencies

Deltek Defect Tracking Number:

981379

Issues Resolved:

Description: When you created a new record and manually entered an existing **Currency ISO Code**, the value was accepted and the default **Formal Name** was displayed only after you tabbed out of the **Currency ISO Code** field. When you checked the lookup list or used **Query**, there were no values or records found. It only showed codes from previously created records under Manage Currencies and did not show all the codes created in the Manage Currency ISO Codes screen.

Customers Impacted: This defect affects you if you use Manage Currencies in Costpoint.
