

Deployment Date: 11/30/2016

Hot Fix: DeltekCostpoint711FrameworkUpdate023.exe; cp711_sys_023.zip; cp711_patch3095_001.zip

Framework

Deltek Defect Tracking Number:

727667

Issues Resolved:

Description: Costpoint now allows users to use a PIN instead of entering a password when logging in to Costpoint on a mobile device. Framework and the Configure System Settings screen have been modified for this enhancement. For the latter, a new check box, **Allow to use PIN on a mobile device**, has been added to enable administrators to let users authenticate login using PIN on a mobile device. **Customers Impacted:** This enhancement affects Costpoint users. **Workaround Before Fix:** None. **Additional Notes:** This requires PATCH3095 and the new security provider file.

Custom Programs Affected:

Sometimes a hot fix can cause custom programs and reports to stop working as expected. Before applying this hot fix, consider whether you have any custom programs or reports in the application area affected by the hot fix. If so, contact Deltek support at <https://deltek.custhelp.com> before you install the hot fix.

To Download the Hot Fix:

1. From Internet Explorer, go to <https://dsm.deltek.com>.
2. Click Run Deltek Software Manager.
3. Log in using your Deltek Customer Care Connect credentials.
4. In the left pane of the Deltek Software Manager, expand your Deltek product.
5. Expand the Hotfix folder for your product, and select the hotfix to download.
6. Click Download at the bottom of the screen.
