

Deployment Date: 12/31/2014

Hot Fix: cp711_pcmrelmo_002.zip

MATERIALS/PRODUCTION CONTROL/PCMRELMO/Relieve Manufacturing Orders

[Deltek Defect Tracking Number:](#)

471138

[Issues Resolved:](#)

Description: When you tried to use serial/lot tracking for make parts, relief of a tracked part/rev did not initially default to the routing number from the MO header in the serial/Lot row.

Customers Impacted: This defect affects all Production Control module users in Costpoint 7.1.1.

Workaround Before Fix: None.

Additional Notes: None.

MATERIALS/PRODUCTION CONTROL/PCMRELMO/Relieve Manufacturing Orders

[Deltek Defect Tracking Number:](#)

472509

[Issues Resolved:](#)

Description: Costpoint did not display an error message indicating that there was an insufficient backflush component quantity. This occurred even though the **Validate MO Reliefs against Open Requirements** field was set to **Hard Error** on the Production Control Settings screen.

Customers Impacted: This affects Costpoint users who use backflush requirements in manufacturing orders if the Production Control setting for the **Validate MO Reliefs against Open Requirements** field is set to **Hard Error**.

Workaround Before Fix: Use multiple partial reliefs.

Additional Notes: None.

MATERIALS/PRODUCTION CONTROL/PCMRELMO/Relieve Manufacturing Orders

[Deltek Defect Tracking Number:](#)

473533

[Issues Resolved:](#)

Description: Backflush did not occur automatically as required for the relief quantity. The system works fine if over-relief was done as part of the relief that completes the MO.

Customers Impacted: This defect affects all Production Control module users in Costpoint 7.1.1 who use backflush during relief.

Workaround Before Fix: Include excess quantity as part of the final relief when completing the MO.

Additional Notes: None.

Custom Programs Affected:

Sometimes a hot fix can cause custom programs and reports to stop working as expected. Before applying this hot fix, consider whether you have any custom programs or reports in the application area affected by the hot fix. If so, contact Deltek support at <https://deltek.custhelp.com> before you install the hot fix.

To Download the Hot Fix:

1. From Internet Explorer, go to <https://dsm.deltek.com>.
2. Click Run Deltek Software Manager.
3. Log in using your Deltek Customer Care Connect credentials.
4. In the left pane of the Deltek Software Manager, expand your Deltek product.
5. Expand the Hotfix folder for your product, and select the hotfix to download.
6. Click Download at the bottom of the screen.

More Information:
