

**Deployment Date: 12/28/2016**

**Hot Fix: DeltekCostpoint711FrameworkUpdate024.exe**

## Framework

[Deltek Defect Tracking Number:](#)

727148

[Issues Resolved:](#)

**Description:** Updates to the DBWizard were made which are the following:

- The DBWizard can now apply service packs and patches to systems where Budgeting & Planning and Time & Expense segments are on different database platforms from the one used for the DATA database segment.
- A fix was made to address Link Views that did not show correct screens when the Admin database is on one server and DATA and SYS are on a different server.

**Customers Impacted:** This defect affects you if you mix database systems for Budgeting & Planning and Time & Expense.

**Workaround Before Fix:** None.

**Additional Notes:** None.

#### Custom Programs Affected:

Sometimes a hot fix can cause custom programs and reports to stop working as expected. Before applying this hot fix, consider whether you have any custom programs or reports in the application area affected by the hot fix. If so, contact Deltek support at <https://deltek.custhelp.com> before you install the hot fix.

#### To Download the Hot Fix:

1. From Internet Explorer, go to <https://dsm.deltek.com>.
2. Click Run Deltek Software Manager.
3. Log in using your Deltek Customer Care Connect credentials.
4. In the left pane of the Deltek Software Manager, expand your Deltek product.
5. Expand the Hotfix folder for your product, and select the hotfix to download.
6. Click Download at the bottom of the screen.

#### More Information:

If you have any questions, please contact Deltek support at <https://deltek.custhelp.com>.
