

# Deltek Costpoint Hot Fix ReadMe

**Release Date: June 15, 2018**

## Close Leave Year for Paid Family Leave

This Costpoint release implements the following:

- Transaction and functional amounts for leave types that have been flagged as **Use for Paid Family Leave** on the Manage Leave Types application will not be recalculated when the leave year is closed. Those amounts must continue to be based on the Average Hourly Compensation Rate which was originally used to determine the transaction and functional amounts when the Paid Family Leave was accrued.
- When a leave code has combinations of different compute methods, and a year balance ceiling is being applied, the year balance ceiling amounts from all of the applicable compute methods will be summed and the total will be used to impose a ceiling on the employee's balance.

The application calculates the balance as follows:

**(Employee's beginning balance for the leave year) + (Employee's total accrued for the leave year) – (Employee's total used for the leave year)**

---

**Note:** The State of New York and City of San Francisco, California both implemented forms of Paid Family Leave in which eligible employees will receive compensation from their employers for specific leave based on family care. Related enhancements for New York and San Francisco Paid Family Leave were released April 2018 and May 2018. You must install the previous releases and this update for the full functionality of the enhancement.

---

## Application JAR Requirements

The following table lists the Costpoint 7.1.1 screens affected by this update. It includes the required JAR version for each application, if applicable.

Domain	Module	Application ID	Application Name	Application File
People	Leave	LDPLYCLS	Close Leave Year	cp711_ldplycls_015.zip

More information about this release is on the following page.

---

## Custom Programs Affected

Sometimes an update can cause custom programs and reports to stop working as expected. Before applying this update, consider whether you have any custom programs or reports in the application area affected by the update. If so, contact Deltek Support Center at <https://deltek.custhelp.com> before you install the update.

## To Download the Hot Fix/Feature Update

1. From Internet Explorer, go to <https://dsm.deltek.com>.
2. Click **Run Deltek Software Manager**.
3. Log in using your Deltek Support Center credentials.
4. In the left pane of the Deltek Software Manager, expand your Deltek product.
5. Expand the Hot Fixes folder for your product, and select the update to download.
6. Click **Download** at the bottom of the screen.

## To Install the Hot Fix/Feature Update

Refer to the installation instructions posted on Deltek's Support Center site, <https://deltek.custhelp.com>.

- For Costpoint 7.1.1 updates, refer to Knowledge Base article 79232.
- For Costpoint 7.0.1 updates, refer to Knowledge Base article 73769.
- For Costpoint 7.0 updates, refer to Knowledge Base article 67722.

Before you install this update, please review all previous updates in the Knowledge Base article. You may need to install prerequisite programs or database patches (described in the Knowledge Base article) prior to installing this update. Note that when you download an update using Deltek Software Manager (DSM), all dependent files are automatically downloaded.

## To Check to See if the Hot Fix is Installed

1. Open the application that was updated.
2. Click **Help » About Costpoint** from the Costpoint toolbar. This will display a screen that shows you the latest update JAR for the application that is open, as well as the latest system JAR and all patches applied to the system.

## To Check to See if the Feature is Installed

1. Click **Help » About Costpoint** from the Costpoint toolbar.
2. Open the Features subtask and click the Feature that was just installed.
3. Open the Applications subtask. Check the list of applications and their corresponding application jars and see if they are correct and have been successfully deployed (highlighted in green).
4. Open the Patches subtask. Check the list of patches and see if they are correct and have been successfully deployed (highlighted in green).

---

**Note:** Most of the features installed have their corresponding patches, but not all.

---

## Appendix: For Additional Information

### Deltek Support Center

The Deltek Support Center is a support Web site for Deltek customers who purchase an Ongoing Support Plan (OSP).

The following are some of the many options that the Deltek Support Center provides:

- Search for product documentation, such as release notes, install guides, technical information, online help topics, and white papers
- Ask questions, exchange ideas, and share knowledge with other Deltek customers through the Deltek Support Center Community
- Access Cloud-specific documents and forums
- Download the latest versions of your Deltek products
- Search Deltek's knowledge base
- Submit a support case and check on its progress
- Transfer requested files to a Customer Care analyst
- Subscribe to Deltek communications about your products and services
- Receive alerts of new Deltek releases and hot fixes
- Initiate a Chat to submit a question to a Customer Care analyst online

---

**Attention:** For more information regarding Deltek Support Center, refer to the online help available from the Web site.

---

### Access Deltek Support Center

To access the Deltek Support Center:

1. Go to <http://support.deltek.com>.
2. Enter your Deltek Support Center **Username** and **Password**.
3. Click **Login**.

---

**Note:** If you forget your username or password, you can click the **Need Help?** button on the login screen for help.
