PJ/CR/PJPCOMPR/Compute Revenue

[Deltek Defect Tracking Number:](#)

854154

[Issues Resolved:](#)

Description: The **Include Zero Revenue Amounts** functionality was not working in the Post Revenue process. Zero records in the PROJ_SUM table were removed rather than updated to zero and left in PROJ_SUM, resulting to Costpoint not being able to back out the revenue when it tried to post.

Customers Impacted: This defect affects Costpoint users.

Workaround Before Fix: Post the amount to the general ledger via an adjusting journal entry (AJE). Alternatively, you can have a revenue adjustment for 1 penny to force a record in PROJ_SUM to exist so Costpoint can then back out the rest of the revenue on posting.

Additional Notes: None.
