Vision HotFix Notes

Released: October 18, 2013

Release Name: Cumulative Update #008

Software Issues Resolved (15)

Vision

Deltek Defect Tracking Number: 390789

Description: When you tried to publish a Vision Performance Management workbook that had Show Top N filtering applied, you received an "Error processing workbook..." error.

Customers Impacted: This defect applies to Vision 7.1.

Workaround Before Fix: None.

Additional Notes: None.

Files Updated

Deltek.Framework.PerformanceDashboard.Server.dll

Other Applications Affected

System File Dependencies

Architecture

Deltek Defect Tracking Number: 393473

Description: An error message displayed when the **Username** field included an embedded space in Configuration » Security» Users » New User.

Customers Impacted: This issue applies to Vision 7.1.

Workaround Before Fix: Use Vision Authentication to set up new users instead of Windows Integrated Security.

Additional Notes: None.

Files Updated

Deltek.Vision.secUsers.Client.dll

Other Applications Affected

System File Dependencies

Billing

Invoice Approvals

Deltek Defect Tracking Number: 385759

Description: Vision allowed you to submit an invoice for approval when there was nothing to print on the invoice and **Print Invoices without Current Activity** was not selected in Billing Terms for the project.

Customers Impacted: This defect applies to Vision 7.1.

Workaround Before Fix: None.

Additional Notes: After you install this fix, Vision does not allow you to submit an invoice for approval in Interactive Billing if **Print Invoices without Current Activity** is not selected and there is no current activity and and no billed-to-date or AR information. However, if there is no activity but there is billed-to-date or AR information, you can submit the invoice. This also applies to Batch Billing, except that, in Batch Billing, an invoice that has no current activity but has billed-to-date or AR information is only submitted for approval if you select **Always Print** in **Print Invoice Without Current Activity** on the Main tab of the Batch Billing form.

Files Updated

Deltek.Vision.Billing.Server.dll

Deltek.Vision.interactiveBilling.Client.dll

System File Dependencies

Configuration
General
Code Tables

Deltek Defect Tracking Number: 394627

Description: Dutch: When Vision was run with the Dutch language selected, the Insert and Delete buttons did not display on the header in the State/Provinces Code Table dialog box.

Customers Impacted: This defect applies to Vision 7.1.

Workaround Before Fix: None.

Additional Notes: After you install this fix, the up and down arrows display without the respective Move Up and Move Down text. These labels were removed for all languages.

Files Updated

Deltek.Vision.CodeTableMaint.Client.dll

Other Applications Affected

System File Dependencies

Deltek Defect Tracking Number: 394628

Description: Dutch: When Vision was run with the Dutch language selected, the **Insert** and **Delete** buttons disappeared after deleting a status from the Contract Status Code Table dialog box.

Customers Impacted: This defect applies to Vision 7.1.

Workaround Before Fix: Delete one Contract Status at a time.The buttons display again after you close and reopen the Contract Status dialog box.

Additional Notes: After you install this fix, the up and down arrows display without the respective Move Up and Move Down text. These labels were removed for all languages.

Files Updated

Deltek.Vision.CodeTableMaint.Client.dll

Other Applications Affected

System File Dependencies

Info Center
Employees

Deltek Defect Tracking Number: 388429

Description: The results of the final merged document did not follow the order that was determined in the Vision grid.

Customers Impacted: This issue applies to Vision 7.1.

Workaround Before Fix: None.

Additional Notes: None.

Files Updated

Deltek.Vision.Merge.Client.dll

Other Applications Affected

System File Dependencies

Projects

Deltek Defect Tracking Number: 376365

Description: The last project record was not loading when you clicked the Back button or returned to the Project Info Center within the same login session.

Customers Impacted: This defect applies to Vision 7.1.

Workaround Before Fix: None.

Additional Notes: None.

Files Updated

Deltek.Framework.Navigation.Client.dll

Other Applications Affected

System File Dependencies

Installation

Deltek Defect Tracking Number: 393757

Description: If you use Touch Time, you received a "Could not retrieve timesheet from server" error when you tried to open an in-progress timesheet or when you tried to create a new timesheet by copying one from the previous period.
Customers Impacted: This defect applies to Vision 7.1 Touch Time.
Workaround Before Fix: None.
Additional Notes: None.

Files Updated

DeltekVision71CumulativeUpdate008.exe

Other Applications Affected

System File Dependencies

Navigator

Deltek Defect Tracking Number: 394220

Description: When a Vision plan was converted to a Navigator plan, the planned bill and planned costs on the Expenses page were zeroed out.

Customers Impacted: This defect applies to Navigator 1.6 and Vision 7.1.

Workaround Before Fix: None.

Additional Notes: None.

Database Changes: Objects Updated -- The **sp_PNCopyPlanFromVision.sql** and **sp_RefreshVOPaidPeriod.SQL** objects were udpated as a result of this hotfix.

Files Updated

DeltekVision71GAHotFix008.sql

Other Applications Affected

System File Dependencies

Purchasing

Purchase Template Editor

Deltek Defect Tracking Number: 374164

Description: If **Footer** was selected in **Location** for an image on the Images tab of the Purchase Template Editor for a purchase order template, you received the following error when you tried to generate purchase order forms using that template: 'Object reference not set to an instance of an object.'

Customers Impacted: This defect applies to Vision 7.0 and later versions.

Workaround Before Fix: None.

Additional Notes: None.

Files Updated

Deltek.Vision.ReportingPurchasing.Server.dll

Other Applications Affected

System File Dependencies

Reporting

Billing

Deltek Defect Tracking Number: 384551

Description: When you previewed the Unbilled Detail and Aging report, the **Final Totals** row displayed in the correct location, just before the **Report Summary (Billing)** section. However, when you selected the **Print Layout** option on the toolbar in the Preview window, the **Final Totals** row displayed after the **Report Summary (Billing)** section.

Customers Impacted: This defect applies to Vision 7.1.

Workaround Before Fix: None.

Additional Notes: None.

Files Updated

Deltek.Vision.ReportingBilling.Server.dll

Unbilled Detail and Aging.rdl

Other Applications Affected

System File Dependencies

Project

Deltek Defect Tracking Number: 390496

Description: When you drilled down on year-to-date hours on the Office Earnings report, the Labor Detail drilldown report incorrectly displayed job-to-date hours instead of year-to-date hours.

Customers Impacted: This defect applies to Vision 7.0 and later versions.

Workaround Before Fix: Generate the Labor Detail report (**Reporting » Project » Labor Detail**) with YTD data to see the correct YTD hours.

Additional Notes: None.

Files Updated

Deltek.Vision.ReportingProject.Server.dll

Other Applications Affected

System File Dependencies

Deltek Defect Tracking Number: 391904

Description: If you previewed an Office Earnings report that included current, job-to-date, and year-to-date values for a user-defined field, and you used the Advanced Search option in the preview window, it appeared that the search results contained duplicate fields because "Current," "Job-to-Date," and "Year-to-Date" were missing from the names displayed for the user-defined field values.

Customers Impacted: This defect applies to Vision 7.0 and later versions.

Workaround Before Fix: None.

Additional Notes: For example, if the report contained a column for a user-defined **Amount 1** field, the search results grid included three columns labeled **Amount 1**. The names displayed for those columns should have been **Current Amount 1**, **Job-to-Date Amount 1**, and **Year-to-Date Amount 1.**

Files Updated

Deltek.Vision.ReportingProject.Server.dll

Other Applications Affected

System File Dependencies

Transaction Center

Deltek Defect Tracking Number: 342294

Description: The **Employee** field was not editable on the Units form in the Transaction Center.

Customers Impacted: This defect applies to Vision 7.1.

Workaround Before Fix: None.

Additional Notes: None.

Files Updated

More information about this release is on the following page.

Custom Programs Affected:

Sometimes a hot fix can cause custom programs and reports to stop working as expected. Before applying this hot fix, consider whether you have any custom programs or reports in the application area affected by the hot fix. If so, contact Deltek support at http://support.deltek.com before you install the hot fix.

To Download the HotFix:

1. From Internet Explorer, go to https://dsm.deltek.com.
2. Click **Run Deltek Software Manager**.
3. Log in using your Deltek Customer Care Connect credentials.
4. In the left pane of the Deltek Software Manager, expand your Deltek product.
5. Expand the Hotfix folder for your product, and select the hotfix to download.
6. Click **Download** at the bottom of the screen.

To Install the HotFix:

Run the executable (.exe) file only on your application server, unless additional tiers are specifically noted in the defect descriptions above.<?xml:namespace prefix = o ns = "urn:schemas-microsoft-com:office:office" />

To Check to See if the HotFix is Installed:

1. Click **Help > About** from the Vision toolbar.
2. Click the **Details** button on the **About Deltek Vision** dialog box.

More Information:

If you have any questions, please contact Deltek support at https://support.deltek.com
