

Deployment Date: 2/28/2017

Hot Fix: cp711_pcmrelmo_014.zip

MATERIALS/PRODUCTION CONTROL/PCMRELMO/Relieve Manufacturing Orders

[Deltek Defect Tracking Number:](#)

733421

[Issues Resolved:](#)

Description: The validation (error) of the application has been modified to only apply to positive residual costs when a reversal of a relief results in zero quantity and non-zero residual costs, and to suppress validation in the case of negative residual costs.

Customers Impacted: This defect affects Costpoint users.

Workaround Before Fix: Adjust the cost to bring the inventory cost down to sufficient levels to make the payback transfer without residual positive costs when quantity becomes zero.

Additional Notes: None.

MATERIALS/PRODUCTION CONTROL/PCMRELMO/Relieve Manufacturing Orders

[Deltek Defect Tracking Number:](#)

734215

[Issues Resolved:](#)

Description: Costpoint displayed this warning message when you saved a partial relief: "One or more tables associated with the MO cost has been updated by another user. Continuing without refreshing and starting a new transaction will not capture any cost changes." This happened even when no cost changes were made after the MO had been loaded to the Enter Manufacturing Order Reliefs (PCMRELMO) screen.

Customers Impacted: This affects Costpoint Production Control module users.

Workaround Before Fix: None.

Additional Notes: None.

MATERIALS/PRODUCTION CONTROL/PCMRELMO/Relieve Manufacturing Orders

[Deltek Defect Tracking Number:](#)

741024

[Issues Resolved:](#)

Description: When you changed the value of the relief quantity on the relief info and reverted the changes, the computation of the relief unit cost amount reflected a different value.

Customers Impacted: This affects Costpoint users.

Workaround Before Fix: Clear all data, and enter the correct values.

Additional Notes: None.

MATERIALS/PRODUCTION CONTROL/PCMRELMO/Relieve Manufacturing Orders

[Deltek Defect Tracking Number:](#)

Deltek Defect Tracking Number:

756872

Issues Resolved:

Description: The application logic has been modified to suppress validation against MO requirements (backflush & non-backflush), in the case of MES MOs, when the new PC Setting check box **Exclude MES Orders when validating MO Reliefs Against Requirements** is selected.

Customers Impacted: This change affects Costpoint users.

Workaround Before Fix: None.

Additional Notes: This change requires PATCH3151.

Custom Programs Affected:

Sometimes a hot fix can cause custom programs and reports to stop working as expected. Before applying this hot fix, consider whether you have any custom programs or reports in the application area affected by the hot fix. If so, contact Deltek support at <https://deltek.custhelp.com> before you install the hot fix.

To Download the Hot Fix:

1. From Internet Explorer, go to <https://dsm.deltek.com>.
2. Click Run Deltek Software Manager.
3. Log in using your Deltek Customer Care Connect credentials.
4. In the left pane of the Deltek Software Manager, expand your Deltek product.
5. Expand the Hotfix folder for your product, and select the hotfix to download.
6. Click Download at the bottom of the screen.

More Information:
