## Pre-Installation Information

- This version has been certified for compatibility with Windows 11
- This version may require you to recompile certain custom reports.
- If you are running CE Live, please stop and restart the service from your server after updating.

---

## Overview

Welcome to the Deltek + ComputerEase 21.3.0 Release Notes. These release notes contain a summary of the changes and enhancements made to the software.

### Accounts Payable

- Added interface for Nvoicepay
- Added the ability to condition invoice routing on the user who entered the invoice
- Added a new 60-character "Check Name" field to vendor maintenance

### Accounts Receivable

- Added a new 60-character "Invoice Name" field to customer maintenance
- Added invoice numbers to the payment import feature
- Retention for an invoice undone to one month and re-posted to a prior period will now show on reports in prior month
- Payments received in period prior to invoice will now show as "ON ACCT" in aging

### General

- Removed reliance on PDF-XChange printer
- Pictures will display on reports according to metadata orientation
- Added ability to select tabs when exporting or importing a workflow menu
- Custom reports will now be installed per company, allowing them to be more easily disabled in a specific company
- Added password settings to allow users to compile custom reports and/or edit templates
- Removed PW MAINT and DOCTOR users from lookup when creating to-do items

### General Ledger

- Added the ability to reprint bank reconciliation reports (for new reconciliations only)
- Journal Entry descriptions will automatically be truncated to 30 characters on import instead of throwing warning

### Job Costing

- Made change to sort order in job cost detail report to prevent labor/burden entries from not grouping correctly
- Added the ability to select a cost type when entering labor items for an itemized RFC

### Document Control

- Meeting sequence will now auto-complete when typing partial sequences

---

## Payroll

- Changed checkboxes on General tab of employee maintenance to yes/no dropdown fields to prevent inadvertent mouse click selections
- Added the ability to override direct deposit amounts in labor distribution
- Updated ACA export to exclude certain characters in business name, which could cause errors
- Added the ability to import negative raise amounts in employee maintenance
- Changed logic of date terminated import to assign to most recent hire date record

## QTool

- Made printing margins wider when printing some reports

## Tool & Equipment Tracking

- Restricted ability to inadvertently edit price code after an invoice has been posted

## Service Management

- Equipment description displayed in window will now refresh when a site is changed in the lookup window

---

## Appendix A: For Additional Information

If you need assistance installing, implementing, or using Deltek + ComputerEase, Deltek makes a wealth of information and expertise readily available to you.
