Deltek Costpoint HotFix Readme

Released: October 9, 2015

Enhancements

> The following enhancements were made in preparation for a future implementation of the Subcontractor Management feature. These enhancements have no impact on current functionality.

Subcontractor Management changes to Manage Request for Quotes by Vendor and View Purchase Requisition Status

Costpoint was enhanced to indicate that the request for quotes (RFQ) and requisition is for creating subcontractor agreements. The following are the updates in Costpoint:

- **View Purchase Requisition Status (PPQRQSTS)**

  - The Manage Request for Quotes by Vendor screen has a new Subcontractor Agreement check box.

  - The View Purchase Requisition Status screen now has the following new subtask:

    o Header SOW (Header level)

    This new subtask only displays the values that are saved for the requisition.

- **Manage Request for Quotes by Vendor (PPMRFQV)**

  - The Manage Request for Quotes by Vendor screen has a new Subcontractor Agreement check box.

  - The Manage Request for Quotes by Vendor screen now has the following subtasks on the header and line level:

    - Header SOW (Header level)

    - Line SOW (Line level)

    - Resources (Line level)

Application JAR Requirements

The following table shows the required application JAR version for each screen affected by this update:

Domain	Module	Application Name	Application ID	Application Jar
MM	PP	View Purchase Requisition Status	PPQRQSTS	cp711_ppqrqsts_002.jar
MM	PP	Manage Request for Quotes by Vendor	PPMRFQV	cp711_ppmrfqv_002.jar

Additionally, the following Costpoint 7.1.1 Patch and system jar file are required for this update:

- cp711_sys_011.jar
- Patch 2632
- Patch 2653
- Patch 2656
- Patch 2669
- Patch 2673

- Patch 2712

More information about this release is on the following page.

Custom Programs Affected:

Sometimes an update can cause custom programs and reports to stop working as expected. Before applying this update, consider whether you have any custom programs or reports in the application area affected by the update. If so, contact Deltek Customer Care at http://support.deltek.com before you install the update.

To Download the HotFix Update:

1. From Internet Explorer, go to https://dsm.deltek.com.
2. Click **Run Deltek Software Manager**.
3. Log in using your Deltek Customer Care Connect credentials.
4. In the left pane of the Deltek Software Manager, expand your Deltek product.
5. Expand the Hot Fixes folder for your product, and select the update to download.
6. Click **Download** at the bottom of the screen.

To Install the HotFix Update:

Refer to the installation instructions posted on Deltek's Customer Care Connect site, https://deltek.custhelp.com.

- For Costpoint 7.1.1 updates, refer to Knowledge Base article 79232.

- For Costpoint 7.0.1 updates, refer to Knowledge Base article 73769.

- For Costpoint 7.0 updates, refer to Knowledge Base article 67722.

Before you install this update, please review all previous updates in the Knowledge Base article. You may need to install prerequisite programs or database patches (described in the Knowledge Base article) prior to installing this update. Note that when you download an update using Deltek Software Manager (DSM), all dependent files are automatically downloaded.

To Check to See if the HotFix is Installed:

1. Open the application that was updated.

2. Click **Help** > **About Costpoint** from the Costpoint toolbar. This will display a screen that shows you the latest update JAR for the application that is open, as well as the latest system JAR and all patches applied to the system.

More Information:

If you have any questions, please contact Deltek Customer Care at https://support.deltek.com.
