What are the benefits of Time & Expense 10?

Deltek Time & Expense 10 improves the user experience even further and makes deploying and administrating the system easier. Deltek Time & Expense automates the time and expense processing workflow for stronger time-keeping and tracking and complies with government time collection and expense regulations with complete visibility and auditability into timesheet transactions.

What's New in Deltek Time & Expense 10?

Utilize Costpoint's Architecture

In version 10, Deltek Time & Expense has been added to the Costpoint architecture, which brings significant benefits to the end users. By converging Time & Expense with Costpoint onto one, single architecture, the user interface becomes common and consistent, delivering users a seamless experience.

Mobile Responsive Design with HTML5

To deliver the ultimate mobile experience, Deltek Time & Expense 10 optimized its user interface, giving more users mobile access to the entire Time & Expense platform from all mobile phones and tablets. Users no longer need to download an app to their device; they can access all of Time & Expense from any mobile browser and the screen automatically adjusts to the device's layout. The result is that more end-users will have mobile access to submit their time and expense anytime, anywhere and from any device—leading to higher productivity and agility across your workforce.

Costpoint Subcontractor Management is Available

Deltek's Costpoint Subcontractor Management solution is revolutionizing how prime contractors can better manage subcontractors to maximize profits, improve cash flow, provide better customer service and deliver higher quality projects. For the subcontractor, it provides access to a self-service time collection solution that helps to keep labor costs in line with work assignment budgets all while providing an easy to use, mobile interface for project team members.

When will I get Time & Expense 10 if I don't join the Redeploy Program?

Deltek is actively building a plan to upgrade customers currently on Time & Expense 9 to Time & Expense 10. Deltek expects to begin executing this plan in the second half of 2017 and upgrades will likely continue into the first half of 2018. The Redeploy program provides you with a path to getting to Time & Expense sooner and provides all the benefits mentioned above.

Who do I contact to learn more about the Redeploy Program?

Please contact your Deltek Customer Success Manager. Your Customer Success Manager is ready to work thru the details and get your on your way with using Time & Expense 10.

Regards,

Deltek Customer Care
