## Framework

Deltek Defect Tracking Number:

522007

Issues Resolved:

**Description:** The Part Master IDs started with "I.D." when displayed in the View Item Purchasing Information screen which resulted to unrelated data.**Customers Impacted:** This defect affects Costpoint users.**Workaround Before Fix:** None.**Additional Notes:** None.

Files Updated:

cp711\_sys\_009.jar

System File Dependencies:

N/A

## Framework

Deltek Defect Tracking Number:

522334

Issues Resolved:

**Description:** When a user account has been deactivated, only the Deactivation Date (DE\_ACTIVATION\_DT) was updated and not the TIME\_STAMP and MODIFIED\_BY columns. **Customers Impacted:** This defect affects Costpoint users. **Workaround Before Fix:** None. **Additional Notes:** Upon log on, Costpoint checks the number of days the user has been inactive and validates it against the value in the Disable Inactive Users Period (Days) field on the Configure System Settings (SYMSETNG) screen. If it exceeds the number of days set, the user account is deactivated. The hot fix now updates the following columns when a user account is deactivated:

- DE\_ACTIVATION\_DT
- TIME\_STAMP
- MODIFIED\_BY

## Framework

Deltek Defect Tracking Number:

525724

Issues Resolved:

**Description:** When importing multiple employees from HRsmart where at least one employee in the group has an invalid company, the whole group will not be processed and no errors are listed on View Interface Status History screen.

**Customers Impacted:** This defect affects Costpoint - HRsmart Integration users.

**Workaround Before Fix:** Complete the following steps as a workaround:

1. Go to the log folder in the Costpoint installation directory (for example, C:\Deltek\Costpoint\70\logs).
2. Check the CP\_INT\_HRSMART\_DEServer.log file for the error.
3. Update the organizational unit of the requisition in HRsmart.
4. Rerun the employee import in Costpoint.

**Additional Notes:** None.

## PEOPLE/PAYROLL/PRPCPR/Compute Payroll

[Deltek Defect Tracking Number:](#)

524107

[Issues Resolved:](#)

**Description:** When multiple checks with the same check date existed on the Manage Employee Earnings History screen and the checks had the same taxable and withholding or accrual amounts, the application computed incorrect YTD totals for local taxes using the YTD method. As a result, the Compute Payroll process calculated local withholdings after the ceiling was already met.

**Customers Impacted:** This defect affects Costpoint Payroll users.

**Workaround Before Fix:** Change check dates so that none of the dates overlap.

**Additional Notes:** None.

### Custom Programs Affected:

Sometimes a hot fix can cause custom programs and reports to stop working as expected. Before applying this hot fix, consider whether you have any custom programs or reports in the application area affected by the hot fix. If so, contact Deltek support at <https://deltek.custhelp.com> before you install the hot fix.

### To Download the Hot Fix:

1. From Internet Explorer, go to <https://dsm.deltek.com>.
2. Click Run Deltek Software Manager.
3. Log in using your Deltek Customer Care Connect credentials.
4. In the left pane of the Deltek Software Manager, expand your Deltek product.
5. Expand the Hotfix folder for your product, and select the hotfix to download.
6. Click Download at the bottom of the screen.

### More Information:

If you have any questions, please contact Deltek support at <https://deltek.custhelp.com>.
