Deployment Date: 3/30/2015

Hot Fix: cp711_pommain_008.zip

MATERIALS/PURCHASING/POMMAIN/Enter POs

Deltek Defect Tracking Number:

477161

Issues Resolved:

Description: When you deleted a purchase order that was generated from requisition that contained pre-assigned serial/lot information, Costpoint also deleted the pre-assigned serial/lot information in the requisition.

Customers Impacted: This affects Costpoint 7.1.1 users who use the Purchasing module.

Workaround Before Fix: None.

Additional Notes: None.

MATERIALS/PURCHASING/POMMAIN/Enter POs

Deltek Defect Tracking Number:

479558

Issues Resolved:

Description: Costpoint automatically reset the **Match Option** field into the system default value, instead of saving the the **Match Option** value that you selected when you created the purchase order (PO).

Customers Impacted: This affects Costpoint 7.1.1 users who use the Purchasing module.

Workaround Before Fix: Run a Query to once again pull up the PO record. Then, change the **Match Option** field into the appropriate value.

Additional Notes: None

MATERIALS/PURCHASING/POMMAIN/Enter POs

Deltek Defect Tracking Number:

480895

Issues Resolved:

Description: The changes that you made to the **Item Description** field for **Service** item types did not save even if the **Allow Modification** check box was selected for goods and services on the Configure Product Definition Settings screen.

Customers Impacted: This affects Purchasing Module users in Costpoint 7.0.1.

Workaround Before Fix: None.

Additional Notes: None.

MATERIALS/PURCHASING/POMMAIN/Enter POs

Deltek Defect Tracking Number:

482288

Issues Resolved:

Description: You could not change the default **Manufacturer ID** and/or **Manufacturer Part** with a value from the alternate part list. Even when you selected a different value, Costpoint reverted back to the default field values after you clicked **Save**.

Customers Impacted: This affects Costpoint 7.1.1 users who use the Purchasing module.

Workaround Before Fix: None.

Additional Notes: None.

MATERIALS/PURCHASING/POMMAIN/Enter POs

Deltek Defect Tracking Number:

482404

Issues Resolved:

Description: The validation logic has been modified so that the **Last Order Date** and the **Last Order ID** fields for an **ITEM** and **ITEM_VEND** table values are updated under the following conditions:

- The purchase order (PO) line **Status** was changed from **Pending** or **Void**.
- The PO line was deleted.
- The PO line **Order Date** was changed.

Customers Impacted: This affects Costpoint users who keep track of item **Last Order Date** and **Last Order ID** information.

Workaround Before Fix: None.

Additional Notes: None.

Custom Programs Affected:

Sometimes a hot fix can cause custom programs and reports to stop working as expected. Before applying this hot fix, consider whether you have any custom programs or reports in the application area affected by the hot fix. If so, contact Deltek support at https://deltek.custhelp.com before you install the hot fix.

To Download the Hot Fix:

1. From Internet Explorer, go to https://dsm.deltek.com.
2. Click Run Deltek Software Manager.
3. Log in using your Deltek Customer Care Connect credentials.
4. In the left pane of the Deltek Software Manager, expand your Deltek product.
5. Expand the Hotfix folder for your product, and select the hotfix to download.
6. Click Download at the bottom of the screen.
