PEOPLE/PAYROLL/HBPAPDED/Mass Update Employee Package Deductions

Deltek Defect Tracking Number:

877315

Issues Resolved:

Description: The Update Employee Package Deductions process calculated incorrect amounts for employees. The application calculated the year-to date (YTD) amount taken incorrectly. It used the check date to compare to the plan dates instead of using the pay period end date of the earnings record to compare to the plan dates.

Customers Impacted: This defect affects Costpoint Payroll users.

Workaround Before Fix: None.

Additional Notes: A known issue exists for HSA elections wherein HSA's contribution and referenced ADDGRS deduction are using check dates to determine the contribution and deduction when the **Base FSA/HSA Deductions on Check Date** check box is not selected (Bug# 878338).
