## **MATERIALS/PRODUCTION CONTROL/PCMMOMNT/Enter Manufacturing Orders**

**Deltek Defect Tracking Number:**

**Issues Resolved:**

**Description:** When you created manufacturing order (MO) to issue, and you used the same requirement line number but with different part numbers, Costpoint reflected the issued quantity under the incorrect part ID.

**Customers Impacted:** This defect affects Costpoint users of both UI and web services.

**Workaround Before Fix:** Use a different requirement line number.

**Additional Notes:** To prevent this duplication of requirement line number, this application has been updated to add a validation to disallow use of duplicate MO requirement line numbers.
