

Deltak Time & Expense HotFix Readme

Release Date: February 28, 2018

Enhancement

New Timesheet Mass Approval Capability

Users of the **Time » Timesheets » Manage/Approve Timesheets** screen now have the ability to approve multiple timesheets in a single step. To enable this enhancement, system administrators should select the new **Allow Mass Approval of Timesheets** check box on the Miscellaneous tab of the **Time » Time Controls » Configure Time Settings** screen.

To approve multiple timesheets from the **Time » Timesheets » Manage/Approve Timesheets** screen, do one of the following:

- Approve all timesheets by selecting the check box at the top of the check box column, as in the following figure:

- Approve selected timesheets by clicking **[CTRL+Click]** each individual check box:

Click **Approve** to approve all selected timesheets.

Although multiple timesheets are selected for approval, timesheets are individually validated. If error or warning messages display for individual selected timesheets, click **OK** to dismiss the messages. You can then click **Approve** again to approve the remainder of the selected timesheets.

Custom Programs Affected:

Sometimes an update can cause custom programs and reports to stop working as expected. Before applying this update, consider whether you have any custom programs or reports in the application area affected by the update. If so, contact Deltek Customer Care at <http://support.deltek.com> before you install the update.

To Download the HotFix/Feature Update:

1. From Internet Explorer, go to <https://dsm.deltek.com>.
2. Click **Run Deltek Software Manager**.
3. Log in using your Deltek Customer Care Connect credentials.
4. In the left pane of the Deltek Software Manager, expand your Deltek product.
5. Expand the Hot Fixes folder for your product, and select the update to download.
6. Click **Download** at the bottom of the screen.

To Install the HotFix/Feature Update:

Refer to the installation instructions posted on Deltek's Customer Care Connect site, <https://deltek.custhelp.com>.

- For Costpoint 7.1.1 updates, refer to Knowledge Base article 79232.
- For Costpoint 7.0.1 updates, refer to Knowledge Base article 73769.
- For Costpoint 7.0 updates, refer to Knowledge Base article 67722.

Before you install this update, please review all previous updates in the Knowledge Base article. You may need to install prerequisite programs or database patches (described in the Knowledge Base article) prior to installing this update. Note that when you download an update using Deltek Software Manager (DSM), all dependent files are automatically downloaded.

To Check to See if the HotFix is Installed:

1. Open the application that was updated.
2. Click **Help > About Costpoint** from the Costpoint toolbar. This will display a screen that shows you the latest update JAR for the application that is open, as well as the latest system JAR and all patches applied to the system.

To Check to See if the Feature is Installed:

1. Click **Help > About Costpoint** from the Costpoint toolbar.
2. Open the Features subtask and click the Feature that was just installed.
3. Open the Applications subtask. Check the list of applications and their corresponding application jars and see if they are correct and have been successfully deployed (highlighted in green).
4. Open the Patches subtask. Check the list of patches and see if they are correct and have been successfully deployed (highlighted in green).
