Deployment Date: 11/15/2015

Hot Fix: cp711_sys_012.zip

PJ/BL/BLPGBILL/Calculate Billings

Deltek Defect Tracking Number:

537203

Issues Resolved:

Description: Print Standard Bills did not show the correct ITD sales tax when the project account group (PAG) for the billing level of the project was different from the PAG at the transaction level of the project. Previously posted sales tax amounts at the billing project level were missing from the sales tax cumulative total.

Customers Impacted: This defect affects clients who need to print cumulative columns to include sales tax, but do not have all taxable accounts in the PAG at the billing level of the project.

Workaround Before Fix: Add all "taxable sales accounts" that are in the transaction-level project's PAG to the PAG of the billing-level project, but make the accounts inactive in the PAG if they are not to be charged at the billing level of the project.

Additional Notes: None.

Custom Programs Affected:

Sometimes a hot fix can cause custom programs and reports to stop working as expected. Before applying this hot fix, consider whether you have any custom programs or reports in the application area affected by the hot fix. If so, contact Deltek support at https://deltek.custhelp.com before you install the hot fix.

To Download the Hot Fix:

1. From Internet Explorer, go to https://dsm.deltek.com.
2. Click Run Deltek Software Manager.
3. Log in using your Deltek Customer Care Connect credentials.
4. In the left pane of the Deltek Software Manager, expand your Deltek product.
5. Expand the Hotfix folder for your product, and select the hotfix to download.
6. Click Download at the bottom of the screen.
