Deltek Defect Tracking Number:

Issues Resolved:

Description: When you ran the Export Payroll Taxes process to create a W-2 tax file, the application duplicated the records for employees. This issue occurred when the data included Z and R records for the same check date and check number; and the same checks were the last checks of the year for the employee.

Customers Impacted: This defect affects Costpoint Payroll users.

Workaround Before Fix: Change the check date or check number to avoid duplicates.

Additional Notes: None.
