Hot Fix: cp711_sys_046.zip; cp711_patch3538_001.zip; cp711_ctmopset_007.zip

CG/C/CTMOPSET/Configure Opportunity Settings

Deltek Defect Tracking Number:

1009269

Issues Resolved:

Description: When users tried to save records in Manage Contracts using the **Save & Continue** function, a performance issue occurred due to the way that the application retrieves financial information. Several screens have been updated, and a new application has been created to resolve this issue.

In Configure Opportunity Settings, changes have been made in the **FY/Period/Subperiod Selection** group box. The **Use latest available report** option has been replaced with the **Use Accounting Period Below** option and three new fields:

- Fiscal Year - Enter the fiscal year to be used for viewing project reports for opportunities.
- Period - Enter the period to be used for viewing project reports for opportunities.
- Subpd - Enter the subperiod to be used for viewing project reports for opportunities.

Select Use Accounting Period Below to use the fiscal year/period/subperiod specified on this screen in the reports. The values in these fields are updated by the Update Project Status Report Tables application only when the accounting period selected is later than what exists in Configure Opportunity Settings, but can be modified. These fields are required and updated only if the Use Accounting Period Below option is selected.

Customers Impacted: This change affects users of Configure Opportunity Settings in Costpoint.

Workaround Before Fix: None.

Additional Notes: None.

Files Updated:

cp711_sys_046.zip

Patch3538.sql

cp711_ctmopset_007.zip

Custom Programs Affected:

Sometimes a hot fix can cause custom programs and reports to stop working as expected. Before applying this hot fix, consider whether you have any custom programs or reports in the application area affected by the hot fix. If so, contact Deltek support at <https://deltek.custhelp.com> before you install the hot fix.

To Download the Hot Fix:

1. From Internet Explorer, go to <https://dsm.deltek.com>.
2. Click Run Deltek Software Manager.
3. Log in using your Deltek Customer Care Connect credentials.
4. In the left pane of the Deltek Software Manager, expand your Deltek product.
5. Expand the Hotfix folder for your product, and select the hotfix to download.
6. Click Download at the bottom of the screen.
