Deployment Date: 12/27/2019

Hot Fix: DeltekCostpoint711FrameworkUpdate060.exe

Framework/External Tools/MONITOR

Deltek Defect Tracking Number:

1210223

Issues Resolved:

Description: There was an error in the Diagnostic Image regarding a missing hostname/port for LDAP settings.

Customers Impacted: This issue affected Costpoint 7.1.1 users.
Workaround Before Fix: As a workaround, delete the old information, save and close the Config Utility tool, reopen it, and enter the information again. Save your changes.
Additional Notes: The csbatools.jar file is required.

Files Updated:

csbatools.jar 8501KB 12/12/19 4:01am

Framework/External Tools/SecurityProvider

Deltek Defect Tracking Number:

1219553

Issues Resolved:

Description: Costpoint is updated to address FIDO usability issues (not able to login under conditions). Login dialogs are improved for better clarity and user experience.
Customers Impacted: This enhancement affects those who use FIDO authentication.
Workaround Before Fix: None.
Additional Notes: The following files are required:

- CPWebSecurityProviders.jar
- csbatools.jar

Files Updated:

CPWebSecurityProviders.jar 350KB 12/12/19 4:02am
csbatools.jar 8501KB 12/12/19 4:01am

cp711_sys_060.zip

Framework/External Tools/MONITOR

Deltek Defect Tracking Number:

1220495

Issues Resolved:

Description: When a client used multiple IIS servers, only the first IIS configuration was diagnosed. This enhancement now covers IIS servers, as well.
Customers Impacted: This issue affected those who use IIS as load balancer.
Workaround Before Fix: None
Additional Notes: The csbatools.jar file is required.

Files Updated:

csbatools.jar 8501KB 12/12/19 4:01am

Custom Programs Affected:

Sometimes a hot fix can cause custom programs and reports to stop working as expected. Before applying this hot fix, consider whether you have any custom programs or reports in the application area affected by the hot fix. If so, contact Deltek support at https://deltek.custhelp.com before you install the hot fix.

To Download the Hot Fix:

1. From Internet Explorer, go to https://dsm.deltek.com.
2. Click Run Deltek Software Manager.
3. Log in using your Deltek Customer Care Connect credentials.

4. In the left pane of the Deltek Software Manager, expand your Deltek product.
5. Expand the Hotfix folder for your product, and select the hotfix to download.
6. Click Download at the bottom of the screen.
