Overview

This document is a compilation of the release notes distributed for the enhancements made in Costpoint, Budgeting and Planning, and Time & Expense in August 2019. This document includes descriptions of the enhancements in relation with system jars, application jars, libraries, and regulatory updates since the last system jar release.

Note: Release notes contain summaries of the enhancements made. Refer to the online help for additional details.

[Costpoint 7.1.1 Online Help](#)

Platform Changes

There are no changes in the platform for this release.

Installation Instructions

Custom Programs Affected

Sometimes an update can cause custom programs and reports to stop working as expected. Before applying this update, consider whether you have any custom programs or reports in the application area affected by the update. If so, contact Deltek Support Center at <https://deltek.custhelp.com> before you install the update.

To Download the HotFix/Feature Update:

1. From Internet Explorer, go to <https://dsm.deltek.com>.
2. Click **Run Deltek Software Manager**.
3. Log in using your Deltek Support Center credentials.
4. In the left pane of the Deltek Software Manager, expand your Deltek product.
5. Expand the Hot Fixes folder for your product, and select the update to download.
6. Click **Download** at the bottom of the screen.

To Install the HotFix/Feature Update:

Refer to the installation instructions posted on Deltek's Support Center site, <https://deltek.custhelp.com>.

- For Costpoint 7.1.1 updates, refer to Knowledge Base article 79232.
- For Costpoint 7.0.1 updates, refer to Knowledge Base article 73769.
- For Costpoint 7.0 updates, refer to Knowledge Base article 67722.

Before you install this update, please review all previous updates in the Knowledge Base article. You may need to install prerequisite programs or database patches (described in the Knowledge Base article) prior to installing this update. Note that when you download an update using Deltek Software Manager (DSM), all dependent files are automatically downloaded.

To Check to See if the HotFix is Installed:

1. Open the application that was updated.
2. Click **Help > About Costpoint** from the Costpoint toolbar. This will display a screen that shows you the latest update JAR for the application that is open, as well as the latest system JAR and all patches applied to the system.

To Check to See if the Feature is Installed:

1. Click **Help > About Costpoint** from the Costpoint toolbar.
2. Open the Features subtask and click the Feature that was just installed.
3. Open the Applications subtask. Check the list of applications and their corresponding application jars and see if they are correct and have been successfully deployed (highlighted in green).
4. Open the Patches subtask. Check the list of patches and see if they are correct and have been successfully deployed (highlighted in green).

Note: Most of the features installed have their corresponding patches, but not all.

People

Deltek Talent Management Integration for Employee Skills Information

The Costpoint – Deltek Talent Management Integration now provides you with the ability to import and export employee skills information between Costpoint and Deltek Talent Management.

For this functionality, Costpoint will be the system of record for the skills database. When you run the integration, any new skills added in Costpoint will transfer to Deltek Talent Management. Employee skills will reside in the databases of both systems and you can import or export the employee skills between the systems from the Transfer Talent Management Data (EMPHRSDAT) screen in Costpoint.

Note: Before transferring employee skills, ensure that the skills tables have the most current data so new skills assigned to employees will be accepted.

Regulatory and Compliance

EEO-1 Report with Pay Data

The U.S. Equal Employment Opportunity Commission (EEOC) requires private employers including federal contractors and subcontractors with 100 or more employees to submit the EEO-1 report with summary pay data. The pay data reports are due on September 30, 2019.

Federal contractors and subcontractors with 50-99 employees will not be required to submit summary pay data but will continue to report demographic data (sex and race or ethnicity) on the EEO-1 report.

Federal contractors and subcontractors with 49 or fewer employees, and companies without federal contracts with 99 or fewer employees, will not be required to complete the EEO-1 report.

For compliance with the updated EEOC requirements, the Print EEO-1 Report (HAREEO1) screen provides a new option that allows federal contractors and subcontractors with 100 or more employees to generate an EEO-1 report with summary pay data. This new option adds to the screen's existing functionality which allows federal contractors and subcontractors with 50 - 99 employees to report demographic data only.

Application Updates

Print EEO-1 Report (HAREEO1)

The screen provides the following new Report Type options:

- **Component 1 Data** — Select this option to print an EEO-1 report that includes demographic data only. This option applies to federal contractors and subcontractors with 50-99 employees which are companies that are required to submit the EEO-1 report but do not need to submit summary pay data.
- **Component 2 Pay Data** — Select this option to print an EEO-1 report that includes demographic and summary pay data. This option applies to private employers including federal contractors and subcontractors with 100 or more employees.

The screen now uses **Range** as the **Effective Date** option in the **Selection Ranges** group box. Use the corresponding **Start** and **End** date fields to specify a pay period date range for the EEO-1 Report. This update is in accordance with the EEO-1 requirements for both Component 1 and Component 2 data which states that “employment data must include all full-time and part-time employees who were employed during the payroll period selected by the employer between October 1 and December 31.”

Manage Pay Types (LDMPAYTP)

The Equal Employment Opportunity Commission (EEOC) Component 2 instructions adopt the Fair Labor Standards Act (FLSA) definition of hours worked. Therefore, the hours worked data that employers will report for the EEO-1 Component 2 will be based on the same hours worked that employers record for FLSA purposes. FLSA hours worked generally do not include paid leave such as sick leave, vacation leave, or paid holidays.

To allow you to exclude applicable pay types from the number of hours worked calculation, the Manage Pay Types screen provides a new **Exclude from Number of Hours Worked** check box.

Print Data Dictionary Report (SYRDD)

The Print Data Dictionary Report screen now provides information for the **Exclude from Number of Hours Worked** (HRS_WORKED_EXCLUDE_FL) column on the Pay Type (PAY_TYPE) table.

System Requirements

The enhancements in this release require Costpoint 7.1.1 PATCH3691.

Application JAR Requirements

The following table lists the Costpoint 7.1.1 screens affected by this update. It includes the required JAR version for each application, if applicable.

Domain	Module	Application ID	Application Name	Application File
People	Payroll	HAREEO1	Print EEO-1 Report	cp711_hareeo1_003.zip
People	Labor	LDMPAYTP	Manage Pay Types	cp711_ldmpaytp_004.zip

Materials Management

There are no changes to the Materials domain for this release.

Administration

There are no changes to the Administration domain for this release.

Reports & Analytics

Role-Based Dashboards: Limitation on the Number of Dashparts Displayed

The number of dashparts that display on the Dashboard Reports tab depends on the number of dashparts you have open on the Parameters tab and your screen resolution. For example, if your screen resolution is lower than 1680 pixels, not all eight dashparts opened on the Parameters tab will be displayed on the Reports tab.

As a workaround, you can do any of the following:

- Toggle between the Parameters and Reports tabs to add (open) and remove (close) dashparts that you want to view.
- Drag the dashpart table windows up or down on the Parameters tab to rearrange the dashparts. Costpoint displays the dashparts on the Reports tab in the order that they appear on the Parameters tab, first to last.
- Set your screen resolution to 1920 pixels, which is the recommended resolution to view all dashparts. Note, however, that if your screen does not support 1920 pixels, you will not be able to set that resolution.

Costpoint Integration

There are no changes to Costpoint Integration in this release.

Costpoint Planning

Budgeting Administration

There are no changes to Budgeting Administration for this release.

Time and Expense

Time

There are no updates in this area.

Expense

There are no updates in this area.

Configuration

There are no updates in this area.

About Deltek

Better software means better projects. Deltek is the leading global provider of enterprise software and information solutions for project-based businesses. More than 23,000 organizations and millions of users in over 80 countries around the world rely on Deltek for superior levels of project intelligence, management and collaboration. Our industry-focused expertise powers project success by helping firms achieve performance that maximizes productivity and revenue. www.deltek.com
