## INTRODUCTION

This document is updated regularly and is based on information provided by BNA. Responsibility for correct withholding of federal, state, and local income taxes remains with the employer. Deltek, Inc. assumes no liability for the accuracy of the information in this document.

### State Abbreviations

The state abbreviations used throughout the system are maintained in the Manage States and Provinces screen in Costpoint System Administration and cannot be changed.

### Special Programming Instructions

This section lists special setup requirements for those states that require a little extra attention and/or have more steps involved in calculating their income tax than the tax table or percentage methods.

### Special Setup Instructions

The states in this section do not have special programming; however, an explanation is needed to understand the correlation between the filing statuses as related to state requirements.

If you use the Print/Reprint Payment Advices and/or Print/Reprint Paychecks applications and you have employees working in a state or states that require the pay rate be included on the check stub, you must select the **Include Pay Rate on Paychecks and Advices** check box in the Manage State Taxes screen for those state(s). If an employee's FLSA status is **Non-exempt** and the **Include Pay Rate on Paychecks and Advices** check box is selected for the employee's SUTA state, the employee's pay rate(s) will be included on the check stub.

## FEDERAL TAX COMPUTATION

### Form W-4 is from 2019 or earlier

#### Percentage Method — Based on Gross Pay

If taxes are based on gross pay, the program follows the steps below to calculate the tax liability:

##### Regular checks:

1. Gross Pay - (Federal Exempt Deductions <sup>a1</sup> + Federal Exempt Pay Types <sup>a2</sup>) x Number of Pay Periods per Year = Gross Annual Wages
2. Gross Annual Wages - (Number of Exemptions x Exemption Amount<sup>b</sup>) = Annual Taxable Wages
3. ((Annual Taxable Wages - **For Taxable Income Over** Amount) x Tax Percentage) + **Base Tax**)<sup>c</sup> = Annual Tax Liability
4. (Annual Tax Liability / Number of Pay Periods per Year) = Tax Liability for Current Period
5. Any **Additional Amount** entered in the Manage Employee Taxes screen is added to the Tax Liability for Current Period.

##### Regular checks: (For Nonresident Aliens)

1. Gross Pay - (Federal Exempt Deductions <sup>a1</sup> + Federal Exempt Pay Types <sup>a2</sup>) x Number of Pay Periods per Year = Gross Annual Wages
2. Gross Annual Wages + Nonresident Alien Addition Amount (from Federal Taxes) = Adjusted Gross Annual Wages
3. Adjusted Gross Annual Wages - (Number of Exemptions x Exemption Amount<sup>b</sup>) = Annual Taxable Wages
4. (((Annual Taxable Wages - **For Taxable Income Over** Amount) x Tax Percentage) + **Base Tax**)<sup>c</sup> = Annual Tax Liability
5. (Annual Tax Liability / Number of Pay Periods per Year) = Tax Liability for Current Period
6. Any **Additional Amount** entered in the Manage Employee Taxes screen is added to the Tax Liability for Current Period.

PLUS Adjustment (calculation for adjustment is below)

1. Gross Pay - (Federal Exempt Deductions + Federal Exempt Pay Types) x Number of Pay Periods per Year = Gross Annual Wages
  2. Gross Annual Wages + Nonresident Alien Addition amount (from Federal Taxes) = Adjusted Gross Annual Wages
  3. Adjusted Gross Annual Wages - (Number of Exemptions x Exemption Amount) = Annual Taxable Wages
  4. (**Base Tax** + ((Annual Taxable Wages - **For Taxable Income Over** Amount) x Plus %)<sup>g</sup> - ((Annual Taxable Wages - **For Taxable Income Over** Amount) x Less %)<sup>h</sup>)<sup>f</sup> = Annual Tax Liability
  5. (Annual Tax Liability / Number of Pay Periods per Year) = Tax Liability for Current Period
- (Note: In step 4, the amount calculated for "g" and "h", one would be zero or both would be zero.)

### Bonus checks:

Amount of Bonus x **Supplemental Earnings Tax Percent** in the Manage Federal Taxes screen = Amount to be withheld or, if **00** is entered as **Supplemental Earnings Tax Percent** in the Manage Federal Taxes screen, then the amount of the bonus is added to the employee's annual salary<sup>d</sup> from the Manage Employee Salary Information screen. The top tax rate<sup>e</sup> for this amount is multiplied by the bonus to arrive at the tax withheld. In addition, for all bonuses, the **Additional Amount** field in the Manage Employee Taxes screen is ignored.

- a1:** Deductions that have been set up as **Federal Exempt** in the Federal Taxability subtask of the Manage Deductions screen.
- a2:** Pay Types that have been set up as **Federal Exempt** in Manage Pay Type Taxability screen.
- b:** **Exemption Amount** from the Manage Federal Taxes screen.
- c:** From the appropriate Federal Tax Table.
- d:** Annual Rate from the Manage Employee Salary Information screen.
- e:** The highest percentage for the annual tax liability from the appropriate Federal Tax Table is used.
- f:** Withholding Table for Nonresident Alien adjustment from Manage Advance Earned Income Credit Tables (PRMEIC)

## Form W-4 is from 2020 or later

### Percentage Method — Based on Gross Pay

If taxes are based on gross pay, the program follows the steps below to calculate the tax liability:

#### Regular checks:

1. Gross Pay - (Federal Exempt Deductions <sup>a1</sup> + Federal Exempt Pay Types <sup>a2</sup>) x Number of Pay Periods per Year = Gross Annual Wages
2. Gross Annual Wages - (Fixed Number of Exemptions <sup>b1</sup> x Exemption Amount<sup>b2</sup>) + Other Income Amount <sup>b3</sup> – Deduction Amount <sup>b4</sup> = Annual Taxable Wages
3. (((Annual Taxable Wages - **For Taxable Income Over** Amount) x Tax Percentage) + **Base Tax**<sup>c1</sup> – ((Number of Federal Dependents <sup>c2</sup> x Qualifying Children under 17 Amount) + (Number of Federal Other Dependents <sup>c3</sup> x Other Dependents Amount) – Other Tax Credit Amount <sup>c4</sup> = Annual Tax Liability
4. (Annual Tax Liability / Number of Pay Periods per Year) = Tax Liability for Current Period
5. Any **Additional Amount** entered in the Manage Employee Taxes screen is added to the Tax Liability for Current Period.

#### Regular checks: (For Nonresident Aliens)

1. Gross Pay - (Federal Exempt Deductions <sup>a1</sup> + Federal Exempt Pay Types <sup>a2</sup>) x Number of Pay Periods per Year = Gross Annual Wages
2. Gross Annual Wages + Nonresident Alien Addition Amount (from Federal Taxes) = Adjusted Gross Annual Wages
3. Adjusted Gross Annual Wages - (Fixed Number of Exemptions<sup>b1</sup> x Exemption Amount<sup>b2</sup>) + Other Income Amount <sup>b3</sup> – Deduction Amount <sup>b4</sup> = Annual Taxable Wages

4. 
$$(((\text{Annual Taxable Wages} - \text{For Taxable Income Over Amount}) \times \text{Tax Percentage}) + \text{Base Tax})^{c1} - ((\text{Number of Federal Dependents} \times \text{Qualifying Children under 17 Amount }^{c2}) + (\text{Number of Federal Other Dependents} \times \text{Other Dependents Amount }^{c3}) - \text{Other Tax Credit Amount }^{c4}) = \text{Annual Tax Liability}$$
5. 
$$(\text{Annual Tax Liability} / \text{Number of Pay Periods per Year}) = \text{Tax Liability for Current Period}$$
6. Any **Additional Amount** entered in the Manage Employee Taxes screen is added to the Tax Liability for Current Period.

#### Bonus checks:

Amount of Bonus x **Supplemental Earnings Tax Percent** in the Manage Federal Taxes screen = Amount to be withheld or, if **00** is entered as **Supplemental Earnings Tax Percent** in the Manage Federal Taxes screen, then the amount of the bonus is added to the employee's annual salary<sup>d</sup> from the Manage Employee Salary Information screen. The top tax rate<sup>e</sup> for this amount is multiplied by the bonus to arrive at the tax withheld. In addition, for all bonuses, the **Additional Amount** field in the Manage Employee Taxes screen is ignored.

- a1:** Deductions that have been set up as **Federal Exempt** in the Federal Taxability subtask of the Manage Deductions screen.

- b1:** **Fixed Number of Exemptions** from the Manage Federal Taxes screen.
- b2:** **Exemption Amount** from the Manage Federal Taxes screen.
- b3:** **Other Income Amount** from the Manage Employee Taxes
- b4:** **Deduction Amount** from the Manage Employee Taxes
- c1:** From the appropriate Federal Tax Table.
- c2:** **Qualifying Children under 17 Amount** from the Manage Federal Taxes screen.
- c3:** **Other Dependents Amount** from the Manage Federal Taxes screen.
- c4:** **Other Tax Credit Amount** from the from the Manage Employee Taxes
- d:** Annual Rate from the Manage Employee Salary Information screen.
- e:** The highest percentage for the annual tax liability from the appropriate Federal Tax Table is used.

## STATE TAX COMPUTATIONS

Delttek Costpoint uses three methods to compute state income taxes. These methods are determined in the **Tax Based On** field in the Manage State Taxes screen. If the **Tax Based On** field is left blank, no tax is calculated; if you enter **F**, the tax table method for federal withholding is performed; and if you enter **G**, the tax table method for gross pay is used.

If **Tax Based On** is left blank in the Manage State Taxes screen, no tax will be calculated unless an override amount is specified in the **Override Amount** field in the Manage Employee Taxes screen.

### Tax Table Method — Based on Federal Withholding

If taxes are based on federal withholding, the program will annualize the federal withholding amount and perform a tax table lookup using the annualized federal withholding amount. The program does not use state deductions or exemptions for this method. After arriving at an annual tax liability, the program divides the annual tax liability by the number of pay periods in a year to arrive at the current calculated tax deduction. Any additional state tax is added as specified in the Manage Employee Taxes screen.

### Tax Table Method — Based on Gross Pay

If taxes are based on gross pay, the program follows the steps below to calculate the tax liability:

**Bonus checks:**

Amount of Bonus x **Supplemental Tax Rate** (State Taxes) = Amount to be withheld or, if **00** is entered as **Supplemental Tax Rate** in the Manage State Taxes screen, then the amount of the bonus is added to the employee's annual salary<sup>f</sup> from the Salary Info and History table. The top tax rate<sup>g</sup> for this amount is multiplied by the bonus to arrive at the tax withheld. In addition, for all bonuses, the **Override Amount** field in the Manage Employee Taxes screen is ignored.

**f:** Annual Rate from the Manage Employee Salary Information screen.

**g:** The highest percentage for the annual tax liability from the appropriate Manage State Tax Tables screen is used.

\* Michigan's two-tiered unemployment-taxable wage base system is not in effect for 2021. Employers are to be assessed an unemployment tax on a wage base of \$9,500 for 2021.

\*\* Experienced Rhode Island employers that pay the maximum unemployment tax rate make payments based on a higher wage base.

State legislatures meet at various times during the first quarter of the year to rule on the unemployment wage base. Therefore, if you receive information at a later date, go to the Manage State Taxes screen and enter the new limit in the **Unemployment Limit** field.

## 2022 STATE DISABILITY INSURANCE - EMPLOYEE CONTRIBUTION

State Disability Insurance is deducted by setting up a **Locality Code** in the Manage Local Taxes screen with **Tax Based On** as a **Y Method**. Using the same **Locality Code**, enter a record in the Manage Local Standard Deductions screen with a filing status of **Both** and with **Percent Over Excess, Minimum**, and **Maximum** equal to **0.00**.

Using the same locality code and filing status, enter a record in the Manage Local Tax Tables screen with the first line in **For Taxable Income Over** equal to **0.00**, **Base Tax Plus** equal to **0.00**, and **Percent of Excess** equal to the **Employee Tax Rate** listed below. The second line of this table should be entered with **For Taxable Income Over** equal to the **Annual Taxable Wage Base** listed below, **Base Tax Plus** equal to the **Maximum Amount** listed below, and **Percent of Excess** equal to **0.00**.

State	Annual Taxable Wage Base	Employee Tax Rate (%)	Maximum Amount
California	\$145,600.00	1.1	\$1,601.60
Hawaii	Based on Employee's Weekly Rate	0.5% <sup>(1)</sup>	\$312.00
New Jersey	151,900.00	0.14%	\$212.66
New York	\$8,500.00	0.511% <sup>(2)</sup>	\$42.50
Puerto Rico	\$9,000.00	0.30%	\$27.00
Rhode Island	\$81,500.00	1.10%	\$896.50

<sup>(1)</sup> Not to exceed \$6.00 per week: Maximum weekly wage base is \$1,200.30

<sup>(2)</sup> Not to exceed \$.60 per week.

## 2022 STATE UNEMPLOYMENT INSURANCE-EMPLOYEE CONTRIBUTION

State Unemployment Insurance is deducted by setting up a **Locality Code** in the Manage Local Taxes screen with **Tax Based On** as a **Y** Method. Using the same locality code, enter a record in the Manage Local Standard Deductions screen with a filing status of **Both** and with **Standard Deduction %**, **Minimum**, and **Maximum** equal to **0.00**.

Using the same locality code and filing status, enter a record in the Manage Local Tax Tables screen with the first line in **For Taxable Income Over** equal to **0.00**, **Base Tax Plus** equal to **0.00**, and **Percent of Excess** equal to the **Employee Tax Rate** listed below. The second line of this table should be entered with **For Taxable Income Over** equal to the **Annual Taxable Wage Base** listed below, **Base Tax Plus** equal to the **Maximum Amount** listed below, and **Percent of Excess** equal to **0.00**.

State	Annual Taxable Wage Base	Employee Tax Rate (%)	Maximum Amount	Fund Name
Alaska	\$45,200.00	0.56%	\$253.12	Unemployment
New Jersey	\$151,900.00	0.14%	\$212.66	Family Leave Insurance (FLI)
New Jersey	\$39,800.00	0.3825%	\$152.24	Unemployment & Health Care
New Jersey	\$39,800.00	0.0425%	\$16.92	Work Force Development/ Supplemental Workforce Fund <sup>(1)</sup>
Pennsylvania	None	0.06%	None	Unemployment

<sup>(1)</sup> Legislation for New Jersey requires that the amounts of these funds be reported separately in Box 14 of the W-2. Therefore, this must be set up as a deduction. You have the option of setting up each fund as its own deduction or combining the two into one deduction. We suggest that you combine the two into one deduction; then you need to use only one line in Box 14.

# Pennsylvania (PA)

## State Information

### Pennsylvania Employer Withholding Information Guide

<https://www.revenue.pa.gov/FormsandPublications/FormsforBusinesses/EmployerWithholding/Documents/rev-415.pdf>

Pennsylvania does not have a form similar to the Federal W-4. Pennsylvania state withholding is based on a flat tax rate. There are no allowances based on dependents claimed, marital status, age, etc.

## State Information

### Wisconsin Employer's Withholding Tax Guide

<https://www.revenue.wi.gov/DOR%20Publications/pb166.pdf>

Effective January 1, 2022:

Updates to Publication W-166, Withholding Tax Guide, include a reduction to one formula method from the previous two methods (A and B). Method B which was previously used by Costpoint has been removed. In the formula to be used beginning January 1, 2022, there is no longer a credit amount (\$22 in 2021). Also, a standard deduction amount depending on the employee's withholding filing status plus an exemption amount of \$400 per exemption will now be deducted from the annual gross earnings. Based from Wisconsin's standard deduction formula, the values have been derived to fit them into the tables in Manage Standard Deduction screen.
