

Deployment Date: 5/25/2016

Hot Fix: cp711_patch2929_001.zip; cp711_ldpldj_005.zip

PEOPLE/LABOR/LDPLDJ/Post Labor Distribution

Deltek Defect Tracking Number:

593405

Issues Resolved:

Description: The Post Labor process used the employee's hourly rate to determine the expected leave amount in comparison with the average amount when calculating gains and losses on used leave. As the result, currency gains and losses was overstated if any rate change was applied to the leave timesheet line.

Customers Impacted: This defect affects Costpoint Multicurrency users.

Workaround Before Fix: None.

Additional Notes: The application should not compute gains and losses on the following leave timesheets/leave timesheet lines:

- Auto-adjusted timesheets
- Prorated
- Wage determination Fringe line was created (for both original and new timesheet lines)
- Recasted
- Standard variance timesheet lines (standard labor rates)
- Retroactive timesheets
- Allowance lines

Custom Programs Affected:

Sometimes a hot fix can cause custom programs and reports to stop working as expected. Before applying this hot fix, consider whether you have any custom programs or reports in the application area affected by the hot fix. If so, contact Deltek support at <https://deltek.custhelp.com> before you install the hot fix.

To Download the Hot Fix:

1. From Internet Explorer, go to <https://dsm.deltek.com>.
2. Click Run Deltek Software Manager.
3. Log in using your Deltek Customer Care Connect credentials.
4. In the left pane of the Deltek Software Manager, expand your Deltek product.
5. Expand the Hotfix folder for your product, and select the hotfix to download.
6. Click Download at the bottom of the screen.
