MATERIALS/INVENTORY/INPPHYS/Set Up Physical Count

Deltek Defect Tracking Number:

1209921

Issues Resolved:

Description: When you cancelled an ongoing process to preview/print a report, and you re-ran the process without restarting the application, you received the following error: At least one row in the selected range is locked by another process. You must wait until the other process is complete. You may not continue.

Customers Impacted: This defect affects Costpoint users.

Workaround Before Fix: Close the application and relaunch it before re-running the report.

Additional Notes: None.

MATERIALS/INVENTORY/INPPHYS/Set Up Physical Count

Deltek Defect Tracking Number:

1210436

Issues Resolved:

Description: Costpoint re-used a count ID when you re-ran a cycle count for a different account type.

Customers Impacted: This defect affects you if you do cycle counts in Costpoint.

Workaround Before Fix: Clear the count ID before re-running the process.

Additional Notes: The following error message should have displayed: The Warehouse ID/Count ID combination already exists.

Custom Programs Affected:

Sometimes a hot fix can cause custom programs and reports to stop working as expected. Before applying this hot fix, consider whether you have any custom programs or reports in the application area affected by the hot fix. If so, contact Deltek support at <https://deltek.custhelp.com> before you install the hot fix.

To Download the Hot Fix:

1. From Internet Explorer, go to <https://dsm.deltek.com>.
2. Click Run Deltek Software Manager.
3. Log in using your Deltek Customer Care Connect credentials.
4. In the left pane of the Deltek Software Manager, expand your Deltek product.
5. Expand the Hotfix folder for your product, and select the hotfix to download.
6. Click Download at the bottom of the screen.

More Information:
