[Issues Resolved:](#)

Description: When an override was applied to an item code on a partially received or vouchered purchase order (PO), the item code reverted back to the original PO but not the description.

Customers Impacted: This defect affects you if you use Manage Purchase Orders on Costpoint.

Workaround Before Fix: When you override a purchase order, choose a record via Lookup. Another option is to type the correct description on the purchase order.

Additional Notes: None.
